J. FORMAN HEADS BOWLING CLUB

Elected President—D. E. Anderson, Vice-Pres. and H. Dickson, Sec'y.—Season Opens Monday.

The Grimsby Lawn Bowling Club at a recent meeting re-organized for the season with the following officers and committees in charge this year: President, J. H. Forman; Vice-President, D. E. Anderson; Secretary-Treasurer, Hartland Dickson; Chairman of Committees: Games, Archie Alton; Greens, Will. Fisher; Property, Robert Coward; Jitneys, A. Stevenson. Mr. Charles Walker will have charge of Friendly Games in the Men's Section and Mrs. Walker in the Ladies' Section.

The season will open on Monday next with a 10c jitney when the games are called for 7.45 o'clock sharp.

These will be the first games to be played on the greens this year, the grounds being in excellent shape. A very successful season is anticipated.

Grape Scarcity Is Not Expected

Recent frosts in the Niagara Peninsula caused some damage to grape crops, but there will be no shortage of grapes this year as a result, the weekly crop report of the Ontario Department of Agriculture said Tuesday night.

In the vicinity of Lincoln County centre of the vineyard district, several grape crops were badly damaged by last week's frosts. The report added: "On the whole, the percentage frozen is small, and there should be still plenty of grapes left for every purpose." Wentworth, also a fruit county, did not suffer heavily. In some districts fires were lighted during one or two of the colder nights, chiefly for the protection of strawberry plants, the report said. However, young shoots of grapes in the district about Hamilton Mountain were badly frozen.

Heaviest crop damage occurred in Central and Eastern Ontario, where tender fruits, alfalfa and clover were destroyed or hurt.

I. O. D. E. And Girl Guides Attend Service In Presbyterian Church

In commemoration of Empire Day, members of the Lincoln Loyalist Chapter, I. O. D. E., accompanied by the 50th I. O. D. E. Company Girl Guides, under the leadership of Miss Scott, attended the morning service at St. John's Presbyterian church, Grimsby, on Sunday. Rev. I. B. Kaine preached an inspiring sermon on "Daughters of Empire" taking for his subject "Women's status through the ages, and her new freedom at the present time."

The girl guides with their flags presented a very pleasing appearance and great credit is due to their leaders for their smart turnout.

EMPIRE DAY OBSERVED HERE

Pupils Gather At High And Public Schools To Hear Patriotic Addresses By Representative Citizens.

Empire Day was fittingly observed at the Grimsby High School on Friday afternoon under the auspices of Lincoln Loyalist Chapter, I.O.D.E., many assembling to honor King and Empire. A large attendance of pupils, including the senior classes of the Public School and a representative gathering of citizens listened to brief but impressive addresses by the speakers of the afternoon, Mr. William Lohman and Rev. I. B. Kaine, who referred to the long and splendid reign of our late King, George V and to the responsibilities which lay before our new King, Edward VIII. Loyalty and patriotism to our King and to our Empire, the greatest in the world, were stressed by the speakers.

The school children on mass sang four well-rendered patriotic choruses. Rev. E. A. Earchman addressed the junior classes at the Grimsby Public School on the Empire Day theme.

Among those who heard the choral composition by the Bach Choir of Hamilton "The Passion of Our Lord", given under the patronage of their Excellencies, Lord and Lady Tweedsmuir, were Mr. and Mrs. D. C. Thomson.

Members And Guests Entertained At Deer Park Golf Club

The Ladies of Deer Park Golf Club competed in a Sealed Hole Competition on Thursday. Alan Home picked as the sealed holes 3, 5, and 6 revealing them after the players had completed their eighteen holes.

The prize, donated by Mrs. "Dad" Farrell was won by Aileen Graham with 4, 4, 3, or 11 average. Second was Mrs. Norman Lawson with 5, 5, 6, or 16 average. It was also a Canadian Ladies' Golf Union Medal Round, the first of the season. One player, Mrs. Park, lowered her handicap.

The Deer Park Golf Club entertained its members and guests in a Two-Ball Mixed Foursome on Monday. Due to excellent playing conditions and general good feeling of the players everyone enjoyed the day immensely. Tied for first place were Mrs. A. R. Globe and Henry Loud; Aileen Graham and Dan Gibson; with 55's. Second place went to Mrs. Armand Smith and Dr. James MacMillan. Actually the best score shot was an 84 by Bill Gibson and Hugh Whyte who refused to accept the prize despite the fact that one had to suffer the indignity of subbing for a lady.

Among the out-of-town guests were Mr. and Mrs. Murray Biggar, Beachgrove Golf Club; Miss Ironsides and Mr. Tim Lord, Waterdown Golf Club; Mr. and Mrs. Nelson, Mr. and Mrs. Van Buskard, Mr. and Mrs. Clark of Glendale Golf Club.

A.Y.P.A. HOLDS CLOSING BANQUET

Proves Very Enjoyable Function — Reg. Towne of Hamilton, Guest Speaker — Successful Year Enjoyed — Officers Elected.

The A.Y.P.A. of St. Andrew's church marked the closing of the season's meetings on Wednesday evening by a St. Andrew's and Mothers' Night which proved a very enjoyable function, about seventy-five being in attendance. The tables were prettily decorated in blue and white, the colors of the A.Y.P.A., bouquets of spirea and white and blue iris adorning them. Mr. Max Johnson, in the absence of David Biggar, the president, acted as chairman.

Following the toast to The King, proposed by the chairman, the toast to The Church was honored, being proposed by Miss E. Bourne, the newly-elected president, and was responded to by Rev. J. A. Ballard. A toast to Mothers was proposed by Miss Doris Woolcombe and was responded to by Mrs. W. Jose, while a toast to the A.Y.P.A. was proposed by Edward Mabey, the newly elected president, and was responded to by Robert Hall of St. Catharines, President of the Lincoln and Welland Local Council of the A.Y.P.A.

Mr. A. W. Almas, a past president (Continued on page 8)

Older Boys' and Girls' Conference Is Held At Winona—Many Attend

The fourth annual older boys' and girls' conference of the Wentworth county Y.M.C.A. and directed by R. C. Sidenius, was held in Fifty United church, Winona, on Saturday and Sunday. The leaders were Miss Marjorie Carpenter, dean of women at McMaster university; Gordon Lapp, general secretary of the national boys' work board, and Alec Simms, a student at Toronto university. Edgar Smee, of Bartonville, had charge of the recreational periods. The conference opened Saturday morning at 10 o'clock. There were 50 or 60 delegates from various parts of the county, and one hundred in attendance, including those from the home church. The program consisted of lectures, group meetings, outdoor games, hikes and campfires. A banquet was served to the delegates on Saturday evening by the Women's association of Fifty church. The delegates were billeted in the various homes in Winona.

Edgar Smee, of Bartonville, was elected president of next year's conference and the incoming executive is as follows: Robert Mayes, Dundas; Miss Ruth Fletcher, Mount Hope; Miss Velma Bell, Glanford Station; Miss Laura Daniels, Jerseyville; William Johnston, Burlington; Miss Dorothy VanStickle, and Daniel MacDougall, Dundas.

SHOULD CALL GRIMSBY DIRECT

In Case of Fire In North Grimsby — Will Avoid Delay And Misunderstanding Through Insufficient Information — Suggestions Offered For Guidance Of Residents By Sec'y. of Joint Fire Committee.

Regarding the recent fire at Mr. Wm. Kemp's, we regret that through insufficient information the Grimsby firemen did not respond, and had it not been for the timely assistance of neighbors, another of North Grimsby's beautiful old homes would have gone by way of the fire demon. We feel that from inquiries we have made, no blame can be attached to any one, but by following out certain suggestions there will be less chance for a similar occurrence in the future.

The residents of North Grimsby are (Continued on page 8)

LEGION NEWS

The regular monthly meeting of the Branch was held at English Inns near Grimsby Beach on Wednesday evening, May 20, 1936. It was well attended and a most enthusiastic meeting.

It was decided that next regular monthly meeting would be held at Smithville, on Wednesday evening, June 17th, 1936, at 8.30 p.m., Eastern Standard Time.

A Church Parade will be held by the Branch at St. John's Church, Jordan, on June 21, 1936, at 11.00 a.m. Daylight Saving Time, comrades to meet at Marquee's Hall at 10.30 a.m. Comrade Rev. Flook will have charge of the service.

Through the efforts of Comrade Rev. Flook, a memorial monument will possibly be erected on the Gore at Jordan in the comparatively near future.

The good wishes for a splendid voyage and pleasant holiday, were extended by members of the Branch, to Comrade President Cooke and his family who are leaving for England on a prolonged holiday. Comrade Cooke will join Vimy Pilgrimage in London at a later date.

BROADCAST FROM GRIMSBY VERY FAVORABLY RECEIVED

Letters Sent Mr. G. L. Eaton By Radio Fans From Widely Separated Points Including, Toronto, Montreal, Ottawa, St. John, N. B. And New York State Highly Commend Festival Chorus And Civic Authorities On Broadcast Which Came Through Clearly.

Keen appreciation of the program of the Grimsby Music Festival Chorus and Civic Address broadcast over C.K.T.B., St. Catharines and heard over a network of stations of the Canadian Radio Commission, including points in the United States is expressed in the following letters received by Mr. G. L. Eaton, Director of Music in the schools of Grimsby and district. Comments on the broadcast, as will be noted, were received from widely separated cities, including Toronto, Montreal, Ottawa and St. John, N.B., as well as from New York State, all of which are of a highly complimentary and encouraging character and will be perused with interest by our readers:

Dorchester, N.B., Canada, May 18, 1936.

The Post Master, Grimsby Ontario.

Dear Sir or Whom It may concern:

It was our great privilege to be of the vast audience listening to your School broadcast this evening, and to the splendid descriptive account of your town's location. We were especially glad to know there is a Masonic Lodge flourishing for so many years (Our Sussex No. 4 dates its beginning 1839) but more than all else we congratulate you because of the Hymn "Unto the Hills". You have not forgotten God, who has made all things so lovely. Such splendid entertainment deserves a longer period for broadcasting. We are left to tune out or listen to something very much inferior. Please accept the thanks of one who has been privileged to hear your splendid entertainment. May it be repeated many times. I am,

Yours very truly,

George Burpee Burnett.

226 Ludlow St., West Saint John, N.B., May 18, 1936.

Addressed to Post Master.

Dear Sir:-

I am in Saint John, a city built up on a rock that is washed twice a day by the tempestuous Bay of Fundy where the salt air puts colour to the cheeks and muscle to the body.

I have been listening to your program with the greatest delight. I had a strange and fascinating delight to travel with your announcer from Toronto to Niagara Falls. I could see your snug homes and the first left turn then down a block then a right turn, then down your clean orderly little town. I could picture your fruit blossoms as many were my visits, and just as often have I told my friends of the glorious sights of the peach, apple pear, cherry, plum.

I have taken enough of your time, but just want to say how much I enjoyed the program. You have added another great delight to your many wonderful achievements of a fine little town.

Sincerely yours,

A. Quinn.

Please give this to the Director of Music.

Toronto, May 20, 1936.

Dear Mr. Eaton:-

I listened with interest to your Blossom Festival and must congratulate you on its success. The singing came through very clearly and was a credit to all concerned. Without any desire to belittle the splendid singing of the unchanged voices, I want to specially mention the work of the male chorus. The balance was fine, the tone and pitch excellent, and would do credit to any organization of much older musicians.

(Continued on page 8)

AWAY BACK WHEN

By FRANK FAIRDORN, JR.

Before Grimsby was connected with the outside world by a railroad it had a Brass Band. The first organized band that was formed in Grimsby was born in 1851.

Just who originated the idea of having a band it is hard to determine. Possibly it was one of the popular ideas that seem to come from nowhere and strike all simultaneously.

It is not likely that this generation of band enthusiasts would do the work that was necessary in those days in order to organize and train a band.

When it had been decided by those hardy pioneers that they were going to have a band they went to work with a will. The first consideration was instruments and these were obtained in what we might consider a novel way. Several members of the proposed band went down to the lake front near where Drope's pier is now located and rowed out in the lake to meet the boat plying from Hamilton to Queenston. Boarding her they went to Buffalo where they purchased their instruments, returning the same day by the same boat. After obtaining the necessary instruments it was essential that a capable instructor be secured and he was found in the person of Bandmaster Harkness of the Royal Canadian Rifles stationed at Niagara.

The band practiced every Friday and it was necessary to drive Mr. Harkness to and from Niagara every week. There are very few who would care, in this generation, to hitch up "Dobbin" to get the bandmaster if he lived as far away as Niagara. Mr. Harkness continued as the leader of the first band until he met his death in the terrible Dejardine accident in 1856.

Probably the first local leader was the late James Nelles who apparently succeeded the ill-fated Mr. Harkness. The old band used to travel through the district in a large band-wagon drawn by four horses. It was such a cumbersome affair that it required an enormous amount of room to manoeuvre it around. It was built by VanDyke and Allison who were the local carriage makers of the period. The names of the various members of this band are hard to find but there were at least seven Nelles boys in it.

There is about ten years of band history which is rather obscure but the band continued to exist until 1881-2 when it died. It was revived, however by Chas. Held in 1883. And a new band came into existence under the leadership of the late Edward Michie. In 1882 there was a large election and the old band played probably its last engagement at a campaign meeting in Smithville.

The Band of 1883 was known for a short while as "Charlie Reid's Band" but with the appointment of a bandmaster it was thought that a proper name should be given to it and it was called the Independent Band.

J. H. Groat had this band play at Toronto exhibition in 1888 at his exhibit there. They also played at every "tea fight" and garden party from St. Catharines to Hamilton.

I have an old picture of the old Independent Band of which Wm. Grobb was the bandmaster. This picture was taken outside of the Park House at the Beach on July 1, 1887. Many of the names will be familiar to the readers so it is worth while to give the list which is as follows: R. Terryberry, H. H. Marsh, W. F. Randall, D. Burkholder, F. B. Russ, Jake Worden, M. Book, C. Hunter who succeeded Grobb as leader later on, J. Ready, Jos. Worden, W. Pennylegion, E. Grobb, W. M. Marsh, J. Secor, E. Hunter, A. Groce, Geo. Brodie, I. Durham and Wm. Grobb, Bandmaster.

Bandmaster Grobb had a fine record as a leader and the Independent Band was always enthusiastically received wherever it went to play. The band varied in numbers at times but always averaged twenty pieces.

The next band was formed in 1894 with Chester Hunter as leader. Hunter was a product of the Grobb band. After Mr. Hunter the next leader was M. B. Tufford, who was followed by Harry Stairs, who is at the present time bandmaster of the 91st Highlanders of Hamilton and has been ever since he left Grimsby. A peculiar change was effected in the leadership of several bands at that time. In Hamilton Wm. Peel was leader of the Sons of England band and for some reason he either left or was discharged.

On leaving the Sons of England, in Hamilton, he went to St. Catharines and took charge of the 19th Regiment band. J. H. Hyde the 19th bandmaster came to Grimsby and Harry Stairs went to Hamilton to lead the Sons of England who after war became the 91st Highlanders.

Bandmaster Hyde was a bandsman who had received his tuition in the British Army. He came to Canada in the band of the Prince Consorts Own Rifle Brigade. In this band was Geo. Robinson, who later became famous as a bandmaster and Wm. Phipps who settled in Grimsby and was the father of Arthur and Albert Phipps.

Mr. Hyde left the band in 1902, going to Alexandria, Ont., where he died a few years later. He was succeeded by F. W. Howard and in the same year the band became the 44th Regiment band. Howard was an ex-pupil of bandmaster Geo. Robinson of the 13th Regiment, who has previously been referred to and who since his arrival in Canada had become little short of famous as a leader of bands. In fact he was offered the leadership of what afterward became known as Sousas band and it was he who recommended Sousa for the position as leader. It was his son that organized the Belleville Kilties and took them on their never to be forgotten tour of the world.

The 44th band grew into a large organization and became the premier band of the rural regiments. During the June camp at Niagara in 1908 a competition was held to determine which band should lead the Western Ontario Composite Battalion at the Tercentenary celebration at Quebec.

This battalion was composed of officers and men picked from the various rural regiments of Western Ontario. It can easily be seen that there would naturally be keen competition among the militia bands for the honor of leading this picked militia regiment. It was no mean achievement for bandmaster Howard and his musicians to win the honor especially when twenty-two bands were in the camp that year.

The Tercentenary was celebrated in July. King George, then Prince of (Continued on page 8)

Beamsville And District Hockey League First Annual Banquet Held

The first annual banquet of the Beamsville and District Hockey League was held Friday night in Taylor's Autotel. A large crowd attended.

The guest speaker was "Dad" Farrell, of Grimsby, a former well known hockey player and for many years one of the best referees in the game. He related reminiscences of his past hockey experience and gave the budding stars many tips on the fine points of game. He emphasized the fact that in the organization of a hockey team the first thing to select was a competent coach. Victor Catton represented the Grimsby arena and spoke to the boys about their past and future expectations from the arena viewpoint. Tom Warner was given a remembrance by the executive of the league in appreciation of his favours to the various teams.

TRINITY YOUNG PEOPLE'S BANQUET

Mr. Brown, General Sec'y. Hamilton Y.M.C.A., Guest Speaker — Annual Election Of Officers — Highly Enjoyable Event Concludes Year's Activities.

Close to one hundred gathered around the festive board in Trinity Hall on Wednesday evening on the occasion of a most enjoyable banquet which marked the close of the season's meetings of the Young People's Society of Trinity United Church and the conclusion of a competition between the four departments of the organization which has been in progress during the past three months. The banquet was tendered the Fellowship Department, the winning group, by the other three departments.

The tables were attractive with spring flowers and the event provided a happy conclusion to a most successful year, the program proving a highly enjoyable and interesting one throughout.

The president, Clive S. Bean, presided.

The supper hour was followed by a short toast list which included a toast to "The King", responded to by the singing of the national anthem. "The Victors" proposed and responded to by Mr. H. V. Betzner, leader of the winning group and Mr. William Greenwood and "The Church" with which toast the names of Mr. A. Cook and Rev. E. A. Earchman were coupled. Mr. Earchman took occasion to highly commend the officers on the high type (Continued on page 4)

Oliver Merritt, Talented Grimsby Pianist, Gives Recital In Hamilton

A large number gathered in the Hamilton Conservatory of Music Recital Hall on Wednesday evening, including many from this town, to hear a piano recital by Oliver Merritt, son of Mr. and Mrs. John W. Merritt of Grimsby and pupil of Mr. James Wiggins, L.H.C.M., of Hamilton, assisted by Isabel Gartshore, soprano, of that city.

Mr. Merritt who is preparing for the degree of A.T.C.M., in his pianoforte studies and who has exhibited most promising musical talent, was heard in several groups of compositions by such well-known master composers as Beethoven, Chopin, Liszt, Debussy and MacDonald which served to not only reveal technique of a high order but a most satisfying and appealing interpretation of the numbers played which were rendered with splendid effectiveness, the young pianist winning general commendation by his brilliant playing. The numbers rendered comprised Sonata 27, No. 2 by Beethoven, Fantasia Impromptu and Nocturne, F sharp major, by Chopin, Etude de Concert, D flat, by Liszt and a group of three numbers, La Soiree dans Grenade and Claire de Lune by Debussy and Polonaise, F minor, by MacDowell.

The assisting artist, Miss Gartshore, sang a group of numbers by Schubert and Schumann and a second group by Debussy, her beautiful soprano voice being heard to excellent advantage in her selections, contributing much to the enjoyment of the program.

Friends here will heartily congratulate Mr. Merritt who is one of Grimsby's rising and most talented young musicians, on his outstanding accomplishment as a pianist.

A reception was afterwards held in the banquet room of the Conservatory.

V. R. FARRELL NEW COUNCILLOR

Is Elected By Acclamation To Fill Vacancy Caused By Resignation Of A. W. Almas.

Vance Ronald Farrell is the new member of the Grimsby town council, being the only one of the three candidates nominated to qualify. He was therefore elected by acclamation, to fill the vacancy for the balance of the year caused by the resignation of A. W. Almas who has removed from town.

The nomination meeting for the selection of candidates was held in the council chambers on Monday evening. Only a few of the electors being present.

Three were nominated for the vacancy, viz: Vance Ronald Farrell, dentist, nominated by J. I. Theal and Sam Hunt; John Stadelmeier, contractor, nominated by H. C. Holmes and G. McNinch; and Charles H. Walker, Manufacturer, nominated by A. Hewson and J. Chivers.

Mr. Farrell, the new councillor, is well and favorably known in the community where he has been a highly regarded and lifelong resident. He is a son of Mr. Charles T. Farrell who was the first Mayor of the municipality following incorporation as a town.

Grimsby Band Will Give Open Air Concert, June 6th

The first of a proposed series of band concerts to be given under the auspices of the Grimsby Business Men's Association will be held on Saturday evening, June 6th from 8.30 to 10 o'clock, on the open square next to the Bank of Commerce building. It is the intention to erect a platform on the square for the accommodation of the Grimsby Band which has been diligently rehearsing for the past few months in preparation for outdoor concerts. The organization has made marked progress since its formation and its services are much in demand. Under the leadership of Mr. Timms, the band is planning to give a high class program a week from Saturday. These concerts, which it is hoped to hold frequently during the summer months, will doubtless attract citizens not only from the immediate community but from surrounding points as well and will be looked forward to with the keenest of interest.

Attractive Displays At Annual Tulip Show On Saturday

The Grimsby Horticultural Society held its annual Tulip Show on Saturday evening last. The unfavorable weather of the past few weeks was not helpful to the members' tulip beds, but the blooms exhibited were generally of good quality and the show attracted a goodly number of visitors. The prize winners were: 3 blooms, E. Freshwater, Mrs. F. D. Aiken; 6 blooms, E. Freshwater, Mrs. G. Luno; Collection, E. Freshwater, Mrs. F. D. Aiken.

Attractive exhibits were also staged by Mrs. G. Kammacher, Sr., Mrs. A. N. Henderson, Fred Sims and Lakeview Greenhouses.

Cooper Bros. Circus Visits Grimsby—Many Attend Performances

Excitement reigned among the young folk in Grimsby on Monday when Cooper Bros. Circus visited the town giving two performances, one in the afternoon and again in the evening. The big top was erected on the Johnson property, on Elizabeth Street north of the C.N.R. tracks and held large crowds, particularly in the afternoon when the kiddies took advantage of the event to enjoy the time of their lives. Aerialists suspended in mid-air, doing breath-taking daring stunts on the trapeze; riders, equestrians and athletes in the big ring combined to make it a gala day for all. There were Peewee, the horse in miniature standing about 26 inches tall and weighing but 40 lbs. who could readily have found any number of young masters in the audience who would have delighted to own him. The well-trained dogs too were an attractive feature of the program.

Side shows were there also for those who desired to be amused until the beginning of the main show.

Moose River Mine Films Circle Globe

Canadian Shots Rated Best Sequence — More Films News From Mining District

MONTREAL — Canada's Moose River mine films according to current reports, circle the globe. Judging by the reception these newsreels have received in leading U. S. theatres, they are the outstanding stories made by Canadian newsreel units in years. Film trade papers rated the Canadian shots as the best sequence from any country on their showing in the New York newsreel theatre where two different stories in celluloid covering the heroism of the rescuers were the features of the bill.

At the same time, Moose River has stirred up interest in other film studios of Canadian mining and two such sound pictures, both Canadian-made, are running. One is "Magic of Gold" which is released from Associated Screen Studios and has gold-mining in the Canadian Rockies as its background. The other has both French and English narrative and is set in the Quebec gold-copper country around Ibouy. Both of these shorts are "fact films."

Canada's cadets from Royal Military College at Kingston leads the academic parade in the newsreels of this year. Newsreels showing a dress review of the undergraduates of the R.M.C. were released recently. On the Atlantic coast off the Nantuxet Light the cameras have caught the rescue at sea of the crew of a sinking Canadian freighter following a collision. Other film news showed Lord Lintilhigo, succeeding Canada's former Governor-General, Lord Willingdon as viceroy of India, mounting the golden throne at Bombay.

Small Population Seen As An Asset

Employ What We Have Before Getting More, Says Hon. Charles Stewart

CALGARY — Canada's small population was to be regarded in the light of an asset rather than a liability at the present time, Hon. Charles Stewart, former minister of the interior and at present chairman of the International Joint Commission, Canadian section, declared in an interview here.

"What would we do with twice the population we have?" he asked. "If you can't pay debts with the people you have, you'll never pay them by getting more people. We can't talk of getting more until we can employ what we have," he said.

Mr. Stewart believed Canada's debt burden was unimportant in the light of her tremendous undeveloped natural resources and her small population.

"When we get to selling our surplus wheat, we'll pull out of our troubles, so fast it will surprise everyone," he added.

Styled for Comfort

Wearing a short-sleeved, turtle-neck, navy blue sweater and white slacks, Irene Harvey, winsome actress, shows real comfort for a quick day in the country.

British Decline Laid To Selfish Spirit

Lord Horder Finds Many Women Simply Cannot be Bothered

KANSAS CITY — Lord Horder, physician to King Edward put his anti-natal campaign in the background to discuss the declining birth rate of western nations.

Lord Horder, accompanied by Dr. Morris Fishbein, editor of the American Medical Association Journal, was in the vanguard of 6,000 American doctors gathering here for their 87th annual convention.

"One factor in the lowering birth rate undoubtedly is the tender-mindedness of many women who are healthy and have healthy husbands but who shrink from facing the work that is woman's chief function," Lord Horder said. "They refuse to bear children either because of psychological aversion to risk and pain or from a thinly disguised selfishness. They can't be bothered."

Willingdon Raised Step In Peerage

Retiring Viceroy of India is Created a Marquess by the King

LONDON — The King has approved that a Marquessate be conferred on the Earl of Willingdon, who has just completed a five-year term as Viceroy of India.

The King received Lord Willingdon in audience at Buckingham Palace, and afterwards the retiring Viceroy and Lady Willingdon had luncheon with his Majesty and Queen Mary.

Freeman Freeman-Thomas was raised to the peerage as Baron Willingdon in 1910. In 1924 he was created a viscount and in 1931 on his appointment as Viceroy of India, after completing a term as Governor-General of Canada, he was created first Earl of Willingdon. As a marquess he will probably retain his association with Willingdon, Sussex, taking the title Marquess of Willingdon.

Denton Massey Can't Take It

Gags on Beauty—Shouts of "Hello, Handsome," Irk M.P.

TORONTO — Denton Massey, the member of Parliament for Toronto-Greenwood, and handsomest member, according to Agnes Macphail, member for Grey-Bruce arrived home determined to squelch the first person who mentioned the words handsome, good-looking or beautiful.

Awaiting him at his home was a handful of telegrams and letters, the latter containing mostly saccharine and fatuous poetry and a few dainty gifts. Prominent among the latter was a bunch of carrots, carefully and daintily arranged into a corsage bouquet and enclosed with another note and poem. He later traced the vegetable offering, via a tell-tale typewriter, to a close friend.

"One more crack about this and I'm going to bust wide open," declared the young parliamentarian. Never did I see anything like it in all my life. People I never saw before in all my life hail me with a big grin and shout "Hello Handsome!" and things like that. It's enough to make a fellow go nutty."

Frank Fisher, Toronto commercial air pilot who has flown Mr. Massey many times, nearly earned himself the role of victim No. 1 when he remarked sotto voce that he felt perturbed about the increasing value of his passenger and would be greatly worried the next time they travelled together.

Just then Mrs. Massey entered the room. "Yes," she said. "I can understand how you would feel. Mr. Fisher, on knowing that you had Miss Canada of 1936 in the plane."

World-Wide Drop In Unemployment

WASHINGTON — A world-wide drop in unemployment was reported recently by the International Labor Organization.

Canada, Great Britain, Germany, Japan, Australia, Belgium, Norway, Poland, Sweden, Chile, France, Finland, Estonia, South Africa and Luxembourg — along with the United States — were among the countries where the number of jobless decreased from March 1935 to March 1936.

Denmark, the Irish Free State, Rumania and Switzerland were the only nations reporting an unemployment gain.

The Field Goes Over the Brush in the Rose Tree Steeplechase

Four of the horses clearing the brush jump in the two-mile Corinthian Plate Steeplechase at the Rose Tree Hunting Club, Media, Pa. The race was won by "Crooning Water."

U. S. Deficit \$5,966,000,000 For Current Year Forecast

WASHINGTON — A United States Treasury deficit of \$5,966,000,000 — the biggest in peace-time history — was forecast by Secretary Morgenthau for the current fiscal year in urging congressional enactment of President Roosevelt's full tax program.

Morgenthau said that the prepayment of the bonus was partly responsible for the huge figure which he said expenditures would exceed income in the 12-months ending June 30.

In recommending this the Senate should add to the \$592,000,000 House Tax Bill the temporary processing taxes asked by Mr. Roosevelt. Mr. Morgenthau also estimated that the 1937 deficit would be \$2,675,000,000.

Mr. Morgenthau's deficit estimates were given as he was questioned by the Senate Finance Committee.

Appearing as the first witness as the committee opened hearings on the bill passed by a 267 to 93 House of Representatives vote, he said that federal credit depended on "scrupulous adherence to an orderly program looking to a balance of the Federal Budget just as soon as the needs and abilities of our people make that possible and thereafter upon a steady reduction in the public debt."

Makes Bathing Disease-Proof

Scientists' New Plan to Remove Germs From Swimming Pools

LONDON — Microbes to keep bath water safe — a Dutch invention that has been tried in Amsterdam — have been successfully experimented with by scientists in London. In a room high above the Strand a London scientist has been watching a daily battle between microscopic armies — bacteria and protozoa, the latter always winning. This race is the basis of a new filtration system for swimming pools.

Most methods of water purification for swimming pools, according to Edward H. Ellis, the scientist in question, rely on some killing agent such as chlorine. The new method consists of syphoning the swimming bath water through a series of filters of special earthy material inoculated with cultures of protozoa — the natural enemy of bacteria.

"Haircut Day"

Toronto Barber Uses Sunday Leisure For Practical Relief Work

TORONTO — This is the story of a barber who gave up his Sunday leisure and instead cut the hair of children of families on relief "to help them retain their self-respect."

His name, "aw, that doesn't matter." It started one Saturday evening when his daughter made him promise to remain home the following day. He did and his daughter, 11 years old, went out and came back with "what looked like all the youngsters in the neighbourhood."

"There wasn't one of them had a haircut all winter," says the barber. "There were boys 10 and 11 and a little older with curls down over their ears to their shoulders. I went to work on those tangles and it was worth it when I saw those kids look at themselves in all the mirrors of the house."

Since then every Sunday is haircut day for the youngsters. As the barber explains: "I got kinda interested in it, and began to look forward to those Sunday afternoons. It wasn't much to do if it made them feel better."

Horses Liable to Hot Weather Itch

A Form of Eczema Induced by Changes of Feed

A common trouble with horses at the commencement of hot weather is Summer Itch. It is usually a form of eczema and is induced by change of feed. Sudden allowances of the green grass, or of new hay or new oats tend to bring it on. Fleas, dirt and lack of grooming are also contributory causes.

A horse that is susceptible to the trouble should not be given young grass, new hay, new oats during the hot weather. If grass must be fed to the horse should be gradually accustomed to it and not suddenly turned on to pasture. A good supply of old oats and hay should always be reserved for the feeding of work horses in the Summer. New hay and oats should be completely dried and matured before being fed to the horse.

In many instances the sores form on the legs and are licked and bitten until they become chronic and very difficult to heal. In some cases they occur just behind the knee or in front of the hock joints where the skin is thin. Some horses have itching, jelly covered sores upon their legs in the Summer that disappear in the Winter.

When summer sores start, iodine form one part and lard seven parts should be applied daily. Chronic summer sores have to be cut out or else sloughed out by a veterinarian. Bathe itching part of a horse's body with a solution made of Epsom salts and water two or three times a day.

The Big Five

Woman Hater's Club at Alberta University is Exclusive

EDMONTON — Despite the fact there is only one rule and regulation a member must observe, the "Woman Hater's" club has remained the most exclusive fraternal organization at the University of Alberta.

The term just closed went down in the annals of the Club as one of the most successful in its history — a new member was added. In becoming the second member to join the club since its founding in 1929, W. Lloyd Huston director of the university magazine and a prominent athlete, had boosted the total membership to five. There is also one associate member.

E. E. "Ted" Bishop founder and life-long president saw only one reason to prevent the club from spreading to Eastern colleges. In the east he said, there was a dearth of genuine woman-hating material and woman hating is the sole purpose of the club.

"We don't give them any recognition whatsoever," Bishop said. The president issued a firm denial to a widely spread rumour that he had authorized the formation of a women's auxiliary. No definite purpose for the imaginary auxiliary had been found by the gossip-mongers.

WOTTER LIFE! Mrs. Sykes stood on her doorstep sermonizing the milkman.

"Now, look 'ere, mister," she said, "I'm not saying it's out to do 'er, 'tho an' thy milk, but tha's can't deny that 'lver sin' tha's started coming round twelve months ago, 't'papers bin sayin' things about 'remarkable shortage of water."

Babson Predicts "Better Times"

Consumers Will Benefit from Heavy Shipping

Windsor — Canadian consumers will benefit from downward revisions of tariff on articles from the United States; gasoline, printing, and automotive machinery, agricultural implements, cotton and rayon clothing, according to the Babson report for May 11.

British Exports Some benefit will accrue to consumers from concessions to British exporters on cotton and rayon yarns and fabrics, earthenware, and iron and steel machinery, the report asserts.

Shipping concerns should prepare for heavy business, for the Canadian grain carriers will have an advantage over those of the United States in inland transportation of grain after August 1st, when the Canadian Shipping Act will be proclaimed.

"Looking at foreign trade as a whole," total exports, states the report of \$779,000,000 for the year ended March 31 should be eclipsed by figures for the current fiscal year. The value of imports for the current period should overshadow the \$552,000,000 total in the year ended March 31st, which was 8 per cent above the preceding months.

March Exports Exports for March were the highest since November 1930; imports were the greatest since 1931. Continuation of this rate of improvement says the report, would force foreign trade to 1929 peaks. Exports to the United States are already 22 per cent over last year. Imports from the United States increased only 5 per cent.

Sales conditions have improved in British Columbia more rapidly than in any other province during the last month. A betterment of about 40 per cent over last year is in evidence in the Prairie Provinces, although Manitoba comparisons are relatively weak with the exception of Winnipeg.

Selling Higher Selling in Ontario is at a rate nearly 10 per cent above the same time in 1935.

Reporting on the grain situation the report states that crop scare upturns will prove temporary, unless the crop of wheat is hard hit or war breaks out.

The report advises caution in the silver speculation. The market trend is still uncertain, and the situation is artificial.

Employment figures for Windsor, according to the report for the month of April show an increase of 11.5 per cent over March 1935, but a decrease of 1.1 per cent from April 1935. The report believes that the new short term outlook for railroad business is decidedly more encouraging, and that railroads will give more employment.

Rev. Dr. McKerroll Gives Accolade To Youth of Today

Moderator of Presbyterian Church Says There Never Was a Finer Generation

KINGSTON ONT. — Speaking at a special service, Rev. Dr. D. T. L. McKerroll, Moderator of the General Assembly of the Presbyterian Church in Canada, paid tribute to work the young people are carrying on in the church.

The Moderator said some people held the belief that the young people were "a queer lot," but it was his opinion there never was a finer generation of young people than today.

He appealed to all members to "work harder on the job."

Preventive For The Dread Paralysis

Nasal Spray Barks Virus—Results Assuring — Vaccines of Little Value.

KANSAS CITY, Mo. — Plans at the Rockefeller Institute to try a newly discovered method of protecting children against infantile paralysis this coming summer and fall are announced to the American Medical Association here.

Unseen Under Glass Thomas M. Rivers, M.D., of Rockefeller Institute, one of the foremost virus experts in medicine told of the hoped for infantile paralysis preventive. The paralysis is caused by a virus, a disease agent too small to be found with a microscope.

Experiments in the past year at the Rockefeller Institute and elsewhere have revealed that several simple nasal sprays seem able to prevent entry of the paralysis virus into living bodies. The experiments will be made with these sprays.

"Although the use of vaccines and sera," said Dr. Rivers, "at present offers little of value in the prevention and treatment of poliomyelitis, the results of work with agents of another nature seem to present hope that a method of controlling the disease eventually may be evolved."

Testing Substances "It is now believed that the virus of poliomyelitis enters the brain from the nasal mucous membranes by way of the olfactory nerve. With this idea in mind, a number of workers have conducted experiments with several viruses in more than one host in order to ascertain whether the entrance of a neurotropic virus into the central nervous system can be blocked by the application of simple chemical substances to the mucous membranes of the nose."

A "neurotropic virus" is one which attacks nerve cells. A "host" is the animal receiving a virus inoculation.

Three nasal sprays which seem to block entry of virus were described by Dr. Rivers. One is tannic acid which protected horses against the virus of encephalomyelitis.

Monkeys Protected Another is sodium alum which protected mice against the virus of encephalitis or sleeping sickness virus, which caused the St. Louis outbreak a few years ago. Alum spraying repeatedly protected monkeys against the human type of infantile paralysis. Lately a dilute solution of picric acid has been substituted for alum.

"From the results of the work just described," Dr. Rivers said "one can predict with a degree of certainty that during the coming summer experiments will be made in the field in the hope that progress in the prevention of poliomyelitis in man will be achieved. Let me suggest, however, that this type of experiment should be conducted only by those who have had proper training."

Reckless Driving Curbs Promised

OTTAWA — A Government bill incorporating many changes in the criminal code will be introduced this session, Minister of Justice Lapointe announced last week in the House of Commons.

At the same time he told Mr. T. L. Church (Cons. Toronto-Broadview) he could offer amendments all clauses in his bill amending the code in relation to reckless driving on the highway. With this assurance, debate on the Church bill was adjourned.

Women Who Drive

"Of course," writes the St. Thomas Times-Journal, "there are careless drivers among the gentler sex, but they are not so great, proportionately as men drivers. Women drivers must not be judged by the few who are fond of driving about with only one hand on the wheel while the other hand is waving at passersby or patting the hair of the driver. To the majority of women motorists driving a car is a very serious business, which requires all one's attention. The drivers among the weaker sex have an innate dread of being involved in a messy accident, and the thought is ever present with them that the best way to avert accidents is to drive safely and sanely."

So if you are in a car with an experienced woman driver at the wheel, put your mind at ease and sit back and enjoy the scenery, for you are just as safe as I. There were an experienced male motorist doing the driving and probably safer since the woman's pilot will naturally take fewer chances than the lardy wheelman."

PRIVILEGED RETAINER

Mrs. Browne: Why ever do you allow your maid to take such liberties, my dear?

Mrs. Smythe: Oh, she's an old family servant — she's been with us for week!

Argentine To Protect Birds

Under New Laws — Buenos Aires Newspaper Opens Strong Drive

BUENOS AIRES, Arg. — The ravages committed against Argentine fauna continue to merit the attention of newspapers in this country. La Prensa, the leading daily, has made the subject an editorial page specialty.

The latest official reports from the Argentine naval chiefs corroborate the charges. They call attention, in particular, to the scarcity of penguins along the southern shores. They say that the same greedy hands which are exterminating the seal despite the prohibition to hunt those animals, are doing the same to the most typical representative of the southern fauna—the penguin—due to the fact that certain feminine fashions demand the feathers and skins of those birds.

The Buenos Aires Provincial Senate has passed a law which is almost an exact reproduction of that submitted to the Provincial Legislature in 1932 but allowed to lapse. It enacts that during the close season (from May 1 to September 1 in Argentina), only partridge, duck and wild pigeon may be killed; but this does not apply to animals regarded as pests by the farmers. The law forbids during the close season, "the sale of birds the killing of which is allowed, wherever they may come from, even if they are from refrigeration plants." This obviously restricts killing to the sporting community and will tend to stop the activities of trappers.

The wholesale capture and destruction of birds and the sale of eggs, nests and fledglings for sale or exportation is forbidden "except in regions where the destruction of certain animals is required, a matter which will be decided by the executive." There must be no hunting on reserves.

International Trade Theme

First Book of Series on U. S.-Canada Relations is Published

TORONTO — For years Canadians and citizens of the United States have been dealing with each other, across a boundary line which service club speakers are happy to emphasize and marked by no guns.

The movement of people across the border and of investment funds has been so natural, so untrammelled by formality, that no official record of its magnitude exists in any easily reachable form.

The Carnegie Endowment for International Peace believes there is a significance in this movement and which should be documented and placed within the reach of all who may be interested.

"Canadian-American Industry" is the first of a series of 30 or more volumes covering the many and varied aspects of Canadian-American relations. For two years men have been at work on the enterprise of international co-operative research. The results are to be published jointly on each side of the border.

"Canadian-American Industry", dealing with international investment on both sides of the line, is the first of a series which is expected to reach 30 or more volumes. Written by Herbert Marshall of the Dominion Bureau of Statistics, Kenneth W. Taylor of McMaster University, and Frank Southard of Cornell, it treats thoroughly the financial exchange between the two countries.

New Airport Is Well Equipped

LONDON, Eng. — Final touches are being given to London's new airport at Gatwick. This landing ground, to the south of the capital and some 20 miles distant, is claimed as one of the most up-to-date in the country, fully equipped for international air traffic.

The company owning this airport plans to build another with similar conveniences at Gravesend, nearer the centre of London and more useful for North Sea air travel.

London is considerably handicapped in aerial development by the fact that all large landing grounds must be some way distant from the centre of the city. Many plans have been put forward for airports in the middle of London, one suggested site being the top of a railway terminus, but none have yet been found practical.

Gatwick Airport will have special fast rail services. It has its own railway station, with a covered way leading from the platforms to the port's offices.

Western Miners To Merge Unions

Officers of 35 Locals in Alberta and B.C. Approve Move.

CALGARY Y.—Officers of 35 miners' locals in Alberta and eastern British Columbia, representing 7,000 men have approved of plans to amalgamate their unions under the United Mine Workers of America, headed by Robert Livett, president of District 18, U.M.W.A.

Mr. Livett will leave immediately for Washington to confer with John J. Lewis, international president, and when he returns a referendum of the workers will be taken for approval of the amalgamation plan.

Represented at the conference here were delegates from the United Mine Workers of America, the Mine Workers' Union of Canada and a number of smaller independent unions.

Under the amalgamation plan, the United Mine Workers Union has consented to look after the striking miners at Corbin, B.C., where 200 workers have been on strike for more than a year. Workers and their families have been maintained by contributions from working miners in the Crow's Nest Pass.

Brains!

Traffic Stopped for Intelligent Woman

WASHINGTON — The patrician-looking woman who waited on the curb for a break in traffic illustrates what happens when Washington's own rush clashes with the mad rush of the many conventions which come here.

She had waited several minutes across the street from a convention hall when she finally took matters into her own hands. She stepped into the street, raised a compelling finger, and shouted: "Stop! Don't you dare run over me, I've got the right across. I'm on a committee!"

Traffic stopped with a jerk and she sailed to the opposite curb majestically.

Prevent Trouble At Calving Time

Greatly Lessening the Dangers Resulting From Calving

The length of time the cow is dry has considerable to do with her ability to produce consistently during a lactation period. Everything else being equal, the cow with the longer rest period will produce more consistently and a greater quantity of milk.

During the rest period the cow stores fat, as well as mineral nutrients which are to be found in the milk she gives. If she has no opportunity to store up these things she is likely to fall off in milk yield very rapidly after a few months. The length of time that a cow should be dry will depend on her age, previous lactation and production expected.

A young cow that has milked very heavily and is not yet mature should have more rest than a mature cow from 10 to 12 weeks for many heifers if heavy production is expected of them. Mature cows that have not produced very heavily, can do well on six to eight weeks' rest; they should not have less than six weeks.

The last few days before calving are very important and probably more mistakes are then made than at any other time. During this period, as well as for three or four days after calving, the cow should be fed very lightly, as her digestive system is not in a position to handle any large amount of feed.

Two or three days before calving, if necessary, give the cow a laxative of Epsom salts. After calving the chill should be removed from her drinking water for two or three days. She also should have a warm bran mash and be blanketed if the weather is cold.

No Jinx Here

Elmer F. West, of Port Huron, in Michigan holds no belief in superstition, and just took at his record. Recently when Friday, the thirteenth, fell that way, Mr. West celebrated his 85th birthday and he contributed a healthy appetite to the family dinner. Nor is that all, this octogenarian has had his birthday fall on Friday the thirteenth no fewer than thirteen times, while if you add together the figures of his age another thirteen is obtained. Born in North Lansing, on March 13, 1851, Mr. West joined the Grand Trunk service in 1870 and had a long and honorable record as a conductor when he retired in 1918. He has been a resident of Port Huron for more than 50 years.

HANDS SWOLLEN WITH RHEUMATISM

Wishes She Had Taken Kruschen Earlier

If only she had taken Kruschen Salts at first, this woman might have saved many dollars, and avoided weeks of suffering. She writes: "I suffered greatly from rheumatism for nearly 12 months. My hands were swollen, and I could not do my own work or get up the stairs without acute pain. I tried almost everything I was told. At last I decided to try Kruschen. I have used two bottles, and I am pleased to tell you I am now better, thanks to Kruschen Salts. I shall never be without it, now I know its value. If I had taken it before, I am sure I should have saved a lot of money."—(Mrs. E.R.)

A good deal of rheumatic pain and swelling is caused by too much uric acid in the body. Two of the ingredients of Kruschen Salts are particularly useful in dissolving excess uric acid deposits. Other ingredients of these Salts assist Nature wash out these dissolved deposits through the natural channels.

Saved by Paint

A farm building put up in the ordinary way with siding and left unpainted will last about 20 years, but the same building painted every five years will last about 50 years. In the case of the unpainted building if the siding is replaced at the end of 20 years the cost would be about the same as it would have been to paint it every five years. This is not the whole story, however, as the unpainted building at the end of 20 years will have only about 15 per cent of its original value, whereas the painted building at the end of 50 years will have about 20 per cent of its original value. This makes no allowance for the great advantage of good appearance.

"CURIOUS"

Americans are curious people. They talk about starting an anti-noise campaign just when a Presidential election is coming on.

ALMOST CRIPPLED with KIDNEY TROUBLE

Also sleeplessness, constipation, liver complaint, and dizzy headaches. **FRUIT-A-TIVES** brought relief in very short time.

Says Mrs. A. Aubry, Montreal: "I was troubled for years with liver complaint and dizzy headaches. I was constipated and almost crippled with kidney trouble. After taking Fruit-A-Tives for a very short time my health greatly improved. I highly recommend Fruit-A-Tives to anyone suffering as I did." Fruit-A-Tives are the discovery of a famous Canadian doctor. They contain extracts of fruits and herbs. They cleanse all the elimination organs and their tonic effects help bring new energy.

New Seed Potato Certified WARBA

The new Warba potato is without a doubt, the finest origin of a century in the early potato class. It has been tried in many parts of United States and Canada and all reports have shown that it is fully two weeks ahead and more productive than the well known early variety Irish Cobbler. Its shape is roundish skin and flesh white, eyes about the same depth as those of the Cobbler variety, but pinkish in color. It cooks well, is delicious and keeps very well. Our trial at Macdonald College last summer, has convinced us that it will soon be the leading variety of potato for our northern climate. While our stock lasts:

5 lbs.	9.75	10 lbs.	1.25
30 lbs.	3.00	60 lbs.	4.50
100 lbs.	6.00

FINANCIAL

FLASHES

This service, giving the latest reports on mining activities, is appearing weekly in this paper.

Little Long Lac

Directors of Little Long Lac Gold Mines have declared a dividend of 10 cents per share, payable June 25th to shareholders of record June 10th. The disbursement, the second made by the company, will involve a total of \$152,500 on the outstanding shares.

While minor increases have been made in the mill at Little Long Lac Gold Mines, President Joseph Errington told shareholders at the annual meeting that no decision for a major increase will be made until the parallel zones and lower levels have been explored. Slashing on the 1000-ft. level showed coarse gold with much samples returning 8.24 ozs. gold per ton. Mine Manager A. A. Barton stated that the two lower levels looked better than any other two cut so far. Drifting has not yet started here.

Kirkland Lake Gold — Crozelli

Kirkland Lake Gold Mining Co., has made an offer to purchase the Crozelli Kirkland Gold Mines Ltd., on a share exchange basis. It is proposed to exchange one share of Kirkland Lake Gold Mining for each 10 shares of Crozelli Kirkland. The latter company's property adjoins Kirkland Lake on the south and development on the ground was discontinued a few years ago following disappointing results from exploration.

Should the offer of Kirkland Lake Gold Mining be accepted, exploration of the property will be resumed. Kirkland Lake already owns a substantial share interest in Crozelli Kirkland.

Hudson Bay Mining

Directors of Hudson Bay Mining & Smelting Co., have declared a dividend of 50 cents per share, payable in Canadian funds June 29th to the shareholders of record May 23rd. Last year the company inaugurated dividends with a 50 cent payment having been disbursed on August 31st, and a similar amount paid on December 16th.

Gunnar Gold Mines

Current indications are that ore at Gunnar Gold Mines will continue at depth, James Houston, Mine manager informed shareholders at the recent annual meeting. A shearing approximately 20 feet wide had cut the shaft just above the 1,500-ft. level. On the hanging wall side quartz occurs over widths of 6 to 18 inches, is well mineralized with visible gold in many places. Samples have run from \$17 to \$37 per ton, he stated. On May 15th the company repaid \$50,000 of the \$250,000 loan negotiated in December, 1935. Remaining payments are not due until 1937 and 1938. Directors were re-elected.

Lancour Mines Ltd.

Louis Whitman, M.E., consulting engineer of Lancour Mines Ltd., accompanied by Mr. Holbrook, geologist of Sylvanite Gold Mines, is at present visiting the property adjoining Pamour Porcupine Mines on the south where an inspection and check

on results obtained on an extensive drilling is taking place. Drilling from at present existing results have been programme of 1 and 2 holes are now which interest hole No. 3 now being secured.

B. United Mines

L.L. which has been carried As a reconnection with ore and search within the Centennial Mine, out in 1932, B. United has reached concentrates where the complete process L. B. United carried out at the mine the point. A refinery addition to the can now be completed and actual itself. The production has been started. Mill has been reports show 1129 lbs. refinery concentrates produced, along Mill progress report of Blanket, 4,120 of Jig concentrates and 5,250 pounds of flotation concentrates. pounds of flotation and of Plat-O Table concentrates.

Cumtup

The greater part Cumtup Mines has been being installed, according to Northern reports. The buildings are being closed in with machinery. The balance of the equipment is now in transit to the mine which is scheduled to be in operation. The plan is at an initial capacity of 50 tons.

Central Gold Mines

A renewed campaign of development is planned for the Central Gold mine in property in Dummer Township. Quebec, arrangements have been made and to carry on extensive work. completed men have been engaged. A crew of 10 men is now working on the shaft which was being developed. 3 vein in former operation on No-understood that the company is to carry on diamond drilling, thoroughly explore the veins. Previously opened up. Central Gold Mines is capitalized at 3,000,000 shares, and of the 1,600,000 shares issued, approximately 500,000 are held in pool until November 1937.

Golden Gate Mining Co.

Golden Gate Mining Company has a crew of 8 men presently employed on the property located 1½ miles west of Macassa. Mines in the Kirkland Lake area opening up the workings and tuning up the mining plant in readiness for renewed development work. In addition the company has a crew engaged in surface exploration and already a new vein carrying considerable free gold has been opened up, according to S. A. Pain, M.E., in charge of operations. The mining plant will shortly be working at capacity.

Duparquet Mining Co.

Directors of Duparquet Mining Co. have approved of the sale of the company's property in Duparquet Township, Quebec, to Dumico Gold Corporation for 1,500,000 shares of the latter stock. Shareholders approval will be asked at a special meeting to be held on May 27th next. Dumico, it is stated, has under consideration several offers to finance development of the property to production.

Nugold Mining Corp.

Called by Nugold an official report on the return of the Mining Corporation general manager of the vice-president and Dome Mine later from the Blockhouse depth operation Nova Scotia, increased with additional men have commenced development of the programme of details for sink the next two months sinking the main shaft to a

depth of 275 feet, drifting on upper levels and diamond drilling. Nugold controls four properties, in Porcupine, Nova Scotia, Tashota and Matachewan areas.

Roche Long Lac

Roche Long Lac Mines, Ltd., has despatched a diamond-drill crew to its property east of Okland Mines in the Little Long Lac area to commence work. The company also owns a group of claims west of Hard Rock and the MacLeod-Cockshutt developments. A surface programme is also scheduled to start on the company's holdings in the Horwood Lake area. Ample finances are available for the summer's work.

Afton Mines

Official announcement is made that Afton Mines plans to form a new company, in which it will hold an 85 per cent interest to develop its Sulcis River claims in the Little Long Lac area. In earlier work on the claims four veins were exposed on which some diamond drilling was done last Fall. The No. 1 vein has been traced for 700 feet. The No. 2 vein lies about 200 feet east of the No. 1. The No. 1 vein was traced for 60 feet before the work on the property was shut down for the winter. A 200 pound sample taken from the surface of the ore showings to a depth of six to nine inches ran 4.02 per cent. Afton plans to put down some deep drill holes and thoroughly explore the property at depth.

Skookum Gold Mines

Following the recommendation of P. M. Passow, M.E., work on the property of Skookum Gold Mines adjoining Red Lake Gold Mine in the Red Lake area is being concentrated on Nos. 1 and 3 veins, according to officials. J. Smith, field manager, in a wire to local officials reports that the No. 1 vein has been picked up across the lake with free gold in evidence. This is about 1,000 feet, from the one point where previous work was done on the vein, extending the length for 1,250 feet. No. 1 vein has been stripped and trunched for over 250 feet, with two pits sunk on the vein showing well mineralized rock.

Pawnee-Kirkland Mines

Officials of Pawnee-Kirkland Mines state that while a deal is pending for further development of its property, and also that of the adjoining King Kirkland Mines, no details can be given out as yet. It is denied that the pending deal is with Consolidated Smelters.

Pawnee-Kirkland is one of the old operations in the Kirkland Lake area and a number of years ago considerable development work was carried out when a shaft was put down to a depth of 700 feet and several levels established and opened up.

SCOUTING

Here There Everywhere

A brother to every other Scout, without regard to race or creed.

The Bronze Cross, for "special heroism at extraordinary risk," was the first medal to be awarded a member of the Scouts Catholiques of Quebec, since the affiliation of that organization with the Boy Scouts Association. The medal was awarded by His Excellency the Governor-General, Lord Tweedsmuir, Chief Scout for Canada, to Rover Squire Charles Maltait, 17, of the Rheumate Troop, of LaTouque, for the rescue of a baby brother when the Maltait home was destroyed by fire on the night of April 4th last. After the older members of the family had escaped it was discovered that a baby was still in the house. The building then was practically a furnace, but Rover Maltait plunged into the flames. Feeling his way, he found the child, and with it in his arms,

leaped from a window. He was very gravely burned about the head and body, and for a time little hope was held out for his recovery. He is still in the hospital at LaTouque.

In order that no one, including travellers by plane, may fail to identify their town, Scouts of Penitence, B.C., spelled out the name high on the side of Munson's Mountain in whitewashed stones.

One thousand Boy Scouts in fifty counties of England, Scotland and Wales gathered at Windsor Castle for the Third National Scout Service, and were addressed by King Edward. It was the first Scout function attended by His Majesty since his accession to the throne.

A fifteen year old French Boy Scout, Bernard Main de Bossiere, winner of a French Scout travel contest which gave him a ten days' visit to North America, was interviewed before he sailed for home from Montreal. One of the exciting experiences of his visit was the holding in his hands of large denomination bills to the amount of \$200,000,000, at the United States Treasury in Washington. He visited the White House, and viewed New York from the top of the Empire State Building in the company of ex-Governor Alfred H. Smith.

"Scouting was abolished in Italy and Germany because Scouting helps a boy to think for himself," said Camp Chief J. S. Wilson, of the Gilwell Park Training Centre, near London, during a visit to Ottawa. "Dictators do not want people to think. The abolition of Scouting in Germany and Italy is not a setback for Scouting. It is a proof of the value of the training in developing initiative and character."

A Scoutcraft Show held under the auspices of the Peterborough, Ont., Rover Crew brought out 177 entries from eight troops. The largest classes were in woodworking, art and model airplanes.

Ymir Yankee Girl Gold Mines

Ymir Yankee Girl Gold Mines has completed plans for the resumption of sinking of the winze to the 1,500-ft. level and work will commence immediately the reasonable flow of water underground decreases sufficiently, according to officials. Underground development at the property is reported to be progressing satisfactorily with latest figures showing broken ore reserves estimated at more than 10,000 tons which indicated ore has been calculated sufficient to maintain the present mill capacity of 150 tons per day for a period of nine years. The company is reported as meeting with success in the effort to reduce general operating costs.

Horses in Demand

Every excess exhausts itself. A few years ago there was a general alarm that the horse was disappearing. There was an actual decrease in the number of horses following the introduction and wide use of tractors, but the downward movement has been checked, and the number of horses is increasing. There is most activity in the draft horse. Breeding studs are having a lively demand, and good draft horses are at a premium. The light harness horse is rare because the horse and buggy days are over, but even the galloped saddle horse is enjoying a growing popularity along with his more sturdy brother the draft horse.

Teacher—Now, James, if your father can do a piece of work in one hour and your mother can do it in one hour, how long would it take them to do it together?
James—It would take three hours including the time they wasted arguing about it.

"You can't distribute wealth by grotesque and demagogic taxation—you can only distribute poverty."
Hugh S. Johnson.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks pink.

Young Lad Rescued From Drowning At Elm Street Bridge

Thursday afternoon, May 21, saw a near tragedy in the 40 mile creek at the point beneath the bridge on Elm St.

Several boys returning from school ventured down underneath the bridge onto the falls. One of the boys, Ian Stevenson, 23 Oak Street, slipped on the wet moss and fell headlong into the pool beneath the falls at this point reaching a depth of close on nine feet. Jack Shrum, 24 Gibson Ave., another of the boys, realizing very quickly the danger Ian was in ran for

assistance. Luckily Mr. Russell Terry, proprietor of the Model Dairy, was at his place of business and being informed of the plight of the boy rushed down the pathway into the pool and rescued the boy who by this time was down, only his hands showing above water. Mr. Terry after taking the boy from the water took him to his home, where after a drying out he was alright.

This is the second or third boy that Mr. Terry has pulled from the dangerous hole and although Mr. Terry is not an accomplished swimmer he has no fear of plunging in.

Mr. Terry and Jack Shrum are both to be complimented on the quickness of thought and daring in effecting the rescue.

Local Items of Interest

Mr. Walter McFay gave an address at the Lions Club "Ladies' Night" at Port Colborne, on Tuesday evening.

Rev. Edwin H. Burgess will preach on Sunday morning next at 11 a.m. in the Boys' Tabernacle, Grimsby Beach. His subject will be "Is There Life Beyond the Grave?" The soloist will be Gareth Burgess. Everyone welcome.

There will be an open bridge under the auspices of Lincoln Loyalist Chapter, I.O.E., at the home of the regent, Mrs. Way, Main Street, West, on Monday, June 1 at 2.45 o'clock. The prize for the series of bridges held through the month of May will be given to the winner.

The plot of land adjacent to the Town Hall which has been fenced in and was last year used for garden purposes in connection with the study of agriculture in the high school is this year again being utilized by the students.

A preparatory service will be held in St. John's Presbyterian church on Friday evening at 8 p.m. Ordination of Elder and regular Communion Service will be held on Sunday morning next while in the evening the subject will be "God's Law And Red Ryan".

Over a score of applications have been received by the Board of Education for the position of principal of the Grimsby High School made vacant by the resignation of Mr. A. R. Clarry. It is expected that an appointment will shortly be made to take effect at the beginning of the fall term.

At the Sunday evening service in Trinity United Church, a trio consisting of Miss Melissa Longfield, Soprano, from the Port Colborne United church choir, Miss Ada Gibbon, soprano and Miss Reta Curran will contribute to the musical part of the service. Miss Longfield will also be the soloist at the evening service.

The Imperial Mill Stars of Grimsby Beach are again under the management of Arthur Clark and played their opening football schedule game with Stoney Creek on Monday evening on the local grounds. The score was 13-11 in favour of the visiting team. Fair's home run and Terryberry's three hits for three times at bat were interesting features.

The Clinic was held at Grimsby Public School on Tuesday, May 18, when the vaccine for small pox was administered to a great number. The Mothers' Club wish to thank Miss Carson, the school nurse, and Drs. MacMillan and Sinclair for their time spent with the children during this clinic.

The firm of Horrocks-Ibbotson Co. has kindly donated a handsome split bamboo casting rod and reel in connection with a prize drawing and card party to be held on Thursday evening in aid of the Grimsby Softball Club. The advance sale of tickets indicates that a large number will attend.

The Court of Revision recently appointed to hear appeals against the Assessment in the town of Grimsby, will meet in the Council Chambers on Thursday evening at 7.30 o'clock. Only a few appeals have been received by the clerk. The court is composed of Mayor Lewis, Reeve Mogg and Councillors Lethian, Chivers and Bourne.

The local fire truck received but one call over the weekend and that on Monday afternoon to Grimsby Beach when an Overland sedan belonging to Wesley York of Grimsby Beach took fire after it had gone over the bank on the lake shore behind the Casino. York was able to escape from the car when it was part way down the bank.

Bill Durham and John Ryans were admitted to the band of the Cooper Bros. Circus while they were stationed in Grimsby and are now travelling with that organization.

GAS STATION ATTENDANT ROBBED IN HAMILTON

Dragged into an alley and brutally assaulted by three men, Leo Cassidy, of 95 John street north, an attendant at Stares Gas Supply station, Park and Market streets, Hamilton, was robbed of 119.34 late Saturday night as he was returning to his home.

The robbery took place at about 11.25 o'clock, and occurred in an alley beside Marie's Plumbing company, Gore and John streets. He was struck heavily in the face and dragged into the alley where two other men started to punch and kick him. The trio then held him down while they rifled his pockets.

TRINITY YOUNG PEOPLE'S BANQUET

(Continued from page 1)
of programs provided during the year, referring to the splendid way in which the activities of the organization had been carried on.

The guest speaker was Mr. Brown, general secretary of the Y. M. C. A., Hamilton, who in an inspiring and forceful address on the subject "Can You Take It?" emphasized the need of these testing times of the qualities of initiative courage, self sacrifice and the ability to "take it". His message was especially appropriate and was listened to with the closest attention, being highly appreciated.

Added interest was lent to the occasion by other excellent contributions to the program including numbers by that talented group of singers directed by Mr. G. L. Eaton, the Grimsby Young Men's Chorus, practically all of whom are members of Trinity Young People's Society, readings by Miss Velma Oldham of Hamilton, who showed herself to be an accomplished elocutionist and Miss Dorothy Slater, also of Hamilton who revealed her skill in the playing of the saw in her selections.

The program was followed by the election of officers for the year, the following report of the nominating committee, presented by Mr. Betzner, being approved by the meeting: Honorary President, Rev. E. A. Earehman; Immediate Past President, Clive S. Bean; President, William Greenwood; Vice President, Albert Jarvis, Secretary-Treasurer, Estella Penfold; Conveners of Committees: Fellowship, J. Walsh; Missionary, Marion Marsh; Literary, William Jones; Citizenship, Louis McEwen; Social, Helen Gadsby. (Continued on Page 8)

BOUGHT 1,000 RAISED 1,000 BRAY CHICKS

LEONARD SHOULDRICE and his mother, Mrs. W. J. Shouldice, Shallow Lake, Ontario, went into partnership on the poultry end of the farm business this spring and ordered 1,000 Barred Rock Chicks. Not only ordered 1,000 — but RAISED 1,000. The 15 "extras" completely covered their losses. At 6 weeks, 28 of the biggest cockerels averaged 2 1/2 lbs. At 10 weeks they sold 209 more cockerels — averaging 2 1/2 lbs. "We never had chicks live and grow like this before," says Mrs. Shouldice.

That's what a great many people have said after raising Bray Chicks. We believe it's what YOU'LL say, too. With high vitality, fast growing, early maturing stock of that kind, there is no reason why June chicks should not develop into profit makers. On the other hand, for June chicks to develop into profit makers you NEED high vitality, fast growing early maturing chicks of that kind — the Bray kind. Our special "end of season" prices are most attractive.

CHAPTER IV
Grimsby Village — Autumn 1859
Installation 32

In the O'Neil log dwelling that morning after young Nathan started for William Beamer's farm, there was much activity.

"We couldn't wait for a nicer day," said Carrie coming out of the door to her father who was erecting a strong tripod in the ground. She drank in the fresh autumn morning air and looked out over the cleared fields to the stillness of the forest, to the standing corn about ready for eating. A saucy blue jay insisted on getting her attention in the sweet chestnut tree overhead. "It's good to be alive, Dick, isn't?" she said, snapping her fingers at him. She had nursed him in the spring when he fell out of his nest a tiny fledgling,

and now he was very important. Her mother hurried out.

"Carrie, get out the dye kettle from the barn while Pa makes the fire, and Pa, we'll need lots of water for rinsing before you go to the field."

"I'll have it all here in just a minute, Ma," he answered. "Don't you do any lifting now."

Many hanks of wool yarn were brought, also cloth, cotton warp and the piece of silk.

"I'll try the mauve first, shall I, Ma? I can hardly wait till I see how it looks. Josephine told me just how to do it."

"Yes, get that in right away in the small kettle. We'll do the lighter things first."

Grasshoppers hummed, scarlet wood pigeons fluttered in the trees. The tranquility of nature was over all except the busy pair. Mrs. O'Neil leaned over to move the pile of undyed yarn, disturbing a brilliantly green dragon fly with gossamer tinted wings. It sheered off up into the sky and for a second she watched it. "God's colors, these are ours," she said.

Carrie laughed, "and the scarlet of that pigeon up there, Ma, wouldn't a coat like that be wonderful?"

Mrs. O'Neil nodded and smiled. "Your grandparents' fine home across the ocean in England is full of hangings and rugs of lovely colors but they are all too expensive for us. You see, the vegetable dyes are very beautiful there. The scarlets and pinks from the cochineal and black of the logwood and many others."

"Why did you leave it all, mother, to come away over here," asked Carrie. "Because I loved your father, child. I know, you've told me about that. But if they knew how grand he is they'd forgive you."

"They never liked it because I left home for this 'wilderness' they called it. Pa was the most set against it and he'll never change. Now this water is boiling. I think it will take a good bit of maple bark." Mrs. O'Neil threw a quantity into the kettle, also a grain of copperas. "Now that can boil, but not too long, and you'll have some nice purple yarn for your new dress. If this comes out as well as your green dress did with the black oak bark and alum I'll be satisfied and it hasn't faded a bit."

Carrie was busy carefully taking off the paper from her little square of mauve color. "Mother, this new dye is made from coal tar. It says 'a new discovery by the eminent English chemist, Sir W. H. Perkins in 1856. Aniline dye, the purple colouring matter, mauve.' So many things seem to be discovered lately."

"Yes, and I'm always afraid to try those new things," said Mrs. O'Neil. "We'll dye some of that worsted a yellow with the dried golden rod heads Mrs. Crosby brought us. I think it's better than the onion skins. She seems so much happier since Sam is to work at Mortons."

"I'll never marry a drunkard, Ma," said Carrie.

"None of them expect to be drunkards, dear, but I think he's really trying."

"Oh, isn't this pretty," she said, holding up the wet silk, "and when it's dry it will be lighter."

"It's going to look very nice," owned up Mrs. O'Neil. "Now I'll just start this solution for the buff dye and get rid of all these pieces of iron we've been collecting so it'll be ready in a few months to dye the linen. Pa's pretty proud of his flax this year."

Now, Ma, I'll get out that barrel. Tell me what to do."

"Very well, go ahead."

She half filled the barrel with water and vinegar and dumped into it old horse shoes, broken knife blades and odds and ends of iron. "That's all, till enough iron dissolves in the acid to make a good color."

It was getting well on in the morning when the purple yarn in the big kettle was ready to be rinsed.

"We'll leave the rest of the wool in to get a little darker for mine. Now Carrie, let me do the rinsing, don't get your hands all colored up for school."

"You're vain, mother, only it's for your daughter," Carrie said demurely. The yarn never seems to mat so much for you either. I'll get some more water. We used it all filling the barrel."

Carrie was at the well hauling up the brimming pail when she heard a cry of pain. Setting the pail down on the stone rim she ran back to find her mother lying on the ground in front of the doorway.

She hurried to her. "Ma, oh you've hurt yourself—oh—oh—can't you move?" She tried desperately to get her into a more comfortable position.

"That's better, dear, call your father. My ankle went over and down I came, so hard."

Carrie raced to the rail fence and seeing him in the farthest field, cupped her hands around her mouth and called out as loudly as her two good lungs could call. After a couple of efforts she drew his attention and he came running. Tenderly he attempted to pick his wife up in his strong arms but she cried out sharply, "oh, no, don't try, Henry, just let me stay here," her face blanching to a chalky white.

"Hurry, Carrie, take Nigger and get Doctor Fitch." She ran in first for a coverlet and they tucked it under her as best they could.

"Oh, I'm so glad Nathan didn't take you, Nigger," she said hurrying him into a gallop as he thundered down the road and mountainside to the village. (To Be Continued)

ST. CATHARINES MAYOR CONTINUES TO IMPROVE

Mayor Walter J. Westwood continues to show improvement, according to the report from the General Hospital Saturday morning.

The Mayor is still in a very weakened condition as a result of his lengthy illness from pneumonia, and while he is showing improvement he is not regarded as entirely out of danger.

Social and Personal

Mr. Alex Gillespie of Listowel was a holiday visitor to Grimsby.

Mr. and Mrs. Kenneth Nelson motored to North Bay for the holiday weekend.

Mrs. B. E. Bechtel has returned after spending a month with her daughter, Mrs. VanEvery, in Kitchener.

Vernon Tuck spent the holiday in Rochester, N.Y. While there he visited the plant of the Bausch and Lomb Optical Co.

Mr. and Mrs. H. VanEvery of Kitchener and Miss Minnie Bechtel of Toronto spent the holiday with Mr. and Mrs. C. S. Bean.

Mrs. St. George Anson of Madison, Wisconsin, returned to her home after visiting for ten days with Mr. Walter McEay and Miss McEay.

Mrs. T. G. Mould, accompanied by Nan Miller and C. H. Jones visited with Mr. and Mrs. Norman Johnson at Barrie over the weekend and holiday.

Mr. and Mrs. Robert Muir, Mountain Street, entertained guests over the holiday from Toronto, Hamilton and Winnipeg.

Mr. Thomas Walker and his mother, Mrs. H. D. Walker, visited with Mr. Ed. Walker at Melissa near Huntsville, over the weekend.

Mrs. W. W. Johnson sailed on Friday from Montreal for England on an extended visit.

Mr. N. H. Smith, of St. Catharines has been spending a week with his daughter, Mrs. George Kammacher, Jr.

Mr. and Mrs. W. B. Smith, Mrs. H. Singer and Mrs. Lloyd Pettit attended the funeral on Tuesday of their cousin, Mrs. Lawrence Green, Niagara Falls, Ontario.

Holiday visitors at the home of Mrs. P. Felker were Mr. and Mrs. Art Warren and little daughter of Hamilton; Mr. and Mrs. William McCabe and son of Hamilton, Mrs. Tuck of Smithville, Miss Felker of Toronto and Mrs. Alf. LePage and children.

The marriage of Irene, daughter of Mr. and Mrs. C. R. Parker, Sault Ste. Marie, Ont., to Stanley R. Globe, Grimsby, has been arranged to take place quietly Monday morning, June 8th, at St. Saviour's Church, Desbarats, Ontario.

Friends here will be sorry to learn that it was found necessary to operate on Saturday morning on Miss Florence Phipps who was one of the victims of the motor accident on No. 8 Highway west of Winona several weeks ago and who has since been confined to Hamilton General Hospital. The operation was the result of hip injuries suffered in the accident.

This week, the various departments of the Bell Telephone company entertained delightfully in honour of Miss Jessie Wilson. Mr. M. J. Powell, on behalf of the staff, presented Miss Wilson with a silver dresser set. Good wishes for her success as manager of the Winona exchange, were expressed. Buffet supper was served. Eighty guests were present.

OBITUARY

Herman Mayer

Mr. Herman Mayer, a resident of Grimsby for about ten years where he carried on the business of harness maker, passed away on Saturday at York where he had latterly made his home, following a period of ill health. He was in his 77th year. His widow survives.

The funeral took place from the Ponthill United Church on Monday, Rev. E. A. Earchman of Grimsby officiating. Burial took place in the Quaker Cemetery near that place.

A. W. Burgess

Many lawn bowlers and other old friends Tuesday paid tribute to Alexander W. Burgess, brother-in-law of Hon. James D. Chaplin, who was laid to rest in Mount Pleasant Cemetery, Toronto. A service was held at the home of Mr. and Mrs. Chaplin, on Ontario Street, St. Catharines, at 3.30 Tuesday afternoon, conducted by Rev. Dr. Frank Morley, pastor of Knox Presbyterian Church, of which the late Mr. Burgess was a member. Mr. Burgess, who had lived retired in St. Catharines for some years, was unmarried. He was one of the most outstanding officers of St. Catharines Lawn Bowling Club.

Mrs. Wm. A. Wentworth

The death occurred at her home in Hamilton on Thursday, May 21st, of Eliza E. wife of William A. Wentworth, following a lingering illness. Deceased was in her 61st year. She was a native of England but had resided in this district for nearly the whole of her life. Surviving besides her husband are three sons and one daughter, Arthur Culp, of Bartonville, Edmund and Cecil Culp of Hamilton and Mrs. Leslie Game, of St. Catharines, also two brothers, George and Harry Herbert, of St. Catharines.

The funeral was held on Saturday afternoon from her late residence, 204 Gibson Avenue, Hamilton to Queen's Lawn Cemetery, Grimsby.

Rev. W. G. Brewer of Hamilton officiated.

The pallbearers were her three sons, Cecil, Arthur and Edmund Culp, Leslie Game, George Wilson and Robert Spence.

Mrs. Annie Johnston

Rev. Mr. Moyer conducted the funeral services for Mrs. Annie Johnston, widow of Thomas S. Johnston, in the Tweedside United church Saturday afternoon. Deceased, who was in her 94th year, died at the residence of her son, Walter S. Johnston, at Vinemount, on Thursday. She is survived by six sons, Murray E. of Ithaca, N. Y.; Frank R. of Toronto, Walter S. of Vinemount, Wilfrid R. of Mist. Oregon; Charles W. of Stockton, Cal.; Albert C. of Mine Centre, Ont.

The late Mrs. Johnston had been a member of the Grimsby Presbyterian church, and was a Sunday school teacher in both the Presbyterian and the Tweedside United churches for many years. In later life she was a member of the Fifty United church, Winona.

MOTHERS' CLUB HEARS TALK ON MUSIC

A pleasant afternoon was spent on Thursday last when the Mothers' Club met at the home of Mrs. Leonard Bromley. Mrs. Garrett of Beamsville gave a splendid talk on Music and dealt with orchestral work as well as Bishop Dvorak's work. Mrs. Garrett also gave three selections on the violin, assisted by Miss Jane Strong of Vineland. Mrs. Bean sang a very lovely solo after which Mrs. Tweney and Mrs. Bueling gave a delightful piano duet. The June meeting will be the annual picnic, to be held at the home of Mrs. Sallows.

FIRST UNITED CHURCH SCHOOL STAFF ADDRESS BY REV. E. A. EARCHMAN

The church school staff of the First United Church, St. Catharines, held its monthly meeting on Wednesday evening last at Taylor's Autotel, Beamsville. A baseball game was interrupted by supper which was served in the dining hall of the camp. The speaker was Rev. E. A. Earchman of Grimsby who had as his topic "The inspector visits the church school." The inspector being each one of his hearers. He took his audience to a church school session and examined the register for new pupils, going on to the worship service to show what ought to be included, and then to the class session for a friendly scrutiny of the pupils and teachers. He concluded with the admonition that each teacher and officer should constantly face the personal question "what are we seeking to do?" The speaker was introduced by Rev. F. S. Dowling and thanked by the superintendent of the school, Arthur Wallis. Following a short business session games and amusements were enjoyed.

RECITAL

Mrs. G. E. Bolton and Pupils take pleasure in extending to you and your friends a cordial invitation to attend an—

Little Piggy Dishes

Don't stick to ham and pork chops when serving "Piggy Dishes." Try these for a change and see how delightful they are:

Baked Spareribs with Apples

Wipe fresh spareribs carefully with a cloth which has been "wringed" out of hot water. Arrange the meat in a dripping pan and place in a hot oven which should have the temperature lowered gradually. Baste with drippings occasionally. When the meat is well browned place apples, which have been cored, in the pan with the meat. Fill the cavity of each apple with brown sugar and let bake until soft. In serving, arrange the apples as a border around the spareribs.

Southern Pot Roast

1 small pork shoulder
1 medium onion sliced
2 cups canned tomatoes
Salt and pepper
2 tablespoons flour
Fry out the trimmings in pan suitable for the roast. Remove cracklings and all fat, leaving but one tablespoon. Add flour. Brown slowly. Add onion. Brown slightly, then add tomatoes. Season the meat and add. Cook in fireless cooker four hours.

Mutton Recipes

Lamb is a frequent visitor in our homes, but how about "mutton"? After all, there are some delicious mutton dishes — well worth trying.

Hot Pot of Mutton and Barley

1 pound mutton
1 cup pearl barley
1 tablespoon salt
4 potatoes
3 onions
Celery tops or other seasoning herbs
Cut the mutton in small pieces, and brown with the onion in fat cut from meat. This will help make the meat tender and improve the flavor. Four this into a covered saucepan. Add two quarts water and the barley. Simmer for one and one-half hours. Then add the potatoes cut in quarters, seasoning herbs, and seasoning, and cook one-half hour longer.

Browned Breast of Mutton

Cook the meat in a small quantity of water until very tender, season-

ing it with salt and pepper, a little garlic and parsley. Drain the meat well, put it into a shallow pan or baking dish and brown in a hot oven. Make a thickened gravy from the stock, coloring it with a little prepared caramel if desired. Serve meat with boiled rice and the gravy. Carrots may be boiled with the meat and browned afterwards with a little sugar and meat dripping if desired.

Piquant Salad Dressings

A bowl of boiled salad dressing used to be at least a half hour job for industrious housewives. But modern kitchen magic has cut the time down to three or four minutes. The same fine flavor and freshness are obtained without any cooking whatever. The short-cut secret is a base of sweetened condensed milk that thickens instantaneously when the vinegar is added. It's economy dressing, too, because no eggs or oil are needed.

Mustard Salad Dressing

1/4 cup sweetened condensed milk
1 cup tomato catsup
1/4 cup prepared mustard
Thoroughly blend sweetened condensed milk, tomato catsup and prepared mustard. Chill. Serve on lettuce or vegetable salad. Makes 1/2 cup.

Cole Slaw Dressing

1 1/3 cups (1 can) sweetened condensed milk
1 teaspoon salt
1/2 cup vinegar
1 teaspoon dry mustard
Blend thoroughly sweetened condensed milk, salt, vinegar and mustard. Stir until mixture thickens. Allow to stand a few minutes to stiffen. This makes an especially good dressing for cole slaw. Makes 1 1/3 cups.

WEEKLY CASH PRIZES

We are offering one dollar for each recipe printed giving the most interesting variation of a salad dish and cooling drink for this time of year.

How To Enter Contest

Mainly write or print out the necessary ingredients and method of your favorite salad and summer drink and send together with name and address to Home Hints, Room 421, 73 West Adelaide St., Toronto.

DUKE OF CONNAUGHT'S BIRTHDAY

The Duke of Connaught spent his 50th birthday quietly at Bournemouth. The Duke, a great-uncle of the King, began his appointment as personal aide-de-camp to King Edward on May 1. He is the senior Field Marshal of the British Army and has the longest service record of any officer in the army list, having "joined up" in 1883. Our picture shows the Duke walking on the front at Bournemouth on his birthday.

Says Canada Heads World in Codeine Use

OTTAWA — Canada has the highest codeine consumption in the world. Dr. J. Hartigan (Lib.), Cape Breton South, told the House of Commons recently. It could be purchased in capsule form at drug stores in quantities big enough to form a life habit. Codeine should not be purchasable in Canada without prescription. Mr. Hartigan suggested. It should be controlled and imports stopped.

The Nova Scotian pointed out that in 1923, 26,000 ounces of codeine were imported. Last year it was 29,000 ounces.

"I suppose when you have been flying for a year or so it becomes second nature?"
"Surest thing you know. Why I'm getting so that I often feel a craving for worms and bird seed."

"At the present time not enough people read poetry. Today is the day for prose."

—John Masfield.

PROBLEMS OF EVERY DAY LIFE

By Dr. M. M. Lappin

Marriage Again

It is one of the healthy signs of our age, perhaps, that young people contemplating marriage are anxious for the true facts regarding life. The pity is that they have so often to live so long without an acquaintance with these facts. However, my mail bag from time to time proves that a great many young people are not prepared to make the martial adventure in ignorance if they can avoid it, and that, I think, is a good sign.

Of course there is no excuse for ignorance today. There are many good books in circulation which have been written for the express purpose of giving to young people just the information they need. But by that, I do not mean to suggest that all books written upon this subject are equally suitable. In fact, a great many are to be avoided, and some are even of such a nature as to make them dangerous rather than helpful, so, unless one is sure, it is better to seek the advice of some competent authority such as the family physician who is always willing to advise, and who may be able to commend a really helpful book.

In my mail this week I have a letter from a young man. He is thinking of marriage, but as there has been an affliction which has manifested itself in three members of his family, and from whom some of his ancestry have suffered for at least three generations back, he is wondering whether he will be doing right if he marries and brings children into the world. This young man has done a very sensible thing. Both he and the young lady whom he proposes to marry have had a consultation with the family doctor who has pronounced them both to be normal — mentally and physically. That should be enough to set their minds at ease. But the fact that he has written one me shows that it has not quite done so.

Well, in view of what his doctor has said, this young man should get rid of his fear. He should not allow

the thought that his children might not be normal haunt his mind. That may be the very way to bring about the thing which he so dreads. He should banish the thought from his mind once and for all, and concentrate on living normally and healthily. Having been pronounced "normal" by a qualified physician, he should now cultivate a healthy mental attitude toward life and a cheery optimistic spirit. He has nothing whatever to fear so long as he keeps his mind free from fear and worry, and his physical health in good condition.

In common with many others who write to me on this subject, this young man also seeks some advice on "Birth Control". Well, here again, there are many books on the market which deal with this subject — books good, bad and indifferent. This is a matter on which his doctor would have given him some reliable advice, and I should advise him to get his information from his doctor. I am writing to him apart from this reply, but my advice on this matter is that self-control is always the best kind of control in everything.

As I have said, it is a healthy sign that our young people are seeking the truth regarding the facts of life, but because of this very fact, a warning needs to be sounded. These young people should be careful how and where and from whom they obtain their information. It is so easy to pick up half truths. That is why I advise the closest cooperation between young people and their parents and the family physician.

NOTE: The writer of this column is a trained psychologist and an author of several works. He is willing to deal with your problem and give you the benefit of his wide experience. Questions regarding problems of EVERYDAY LIVING should be addressed to: Dr. M. M. Lappin, room 421, 73 Adelaide Street West, Toronto, Ontario. Enclose a 3 cent stamped, addressed envelope for reply.

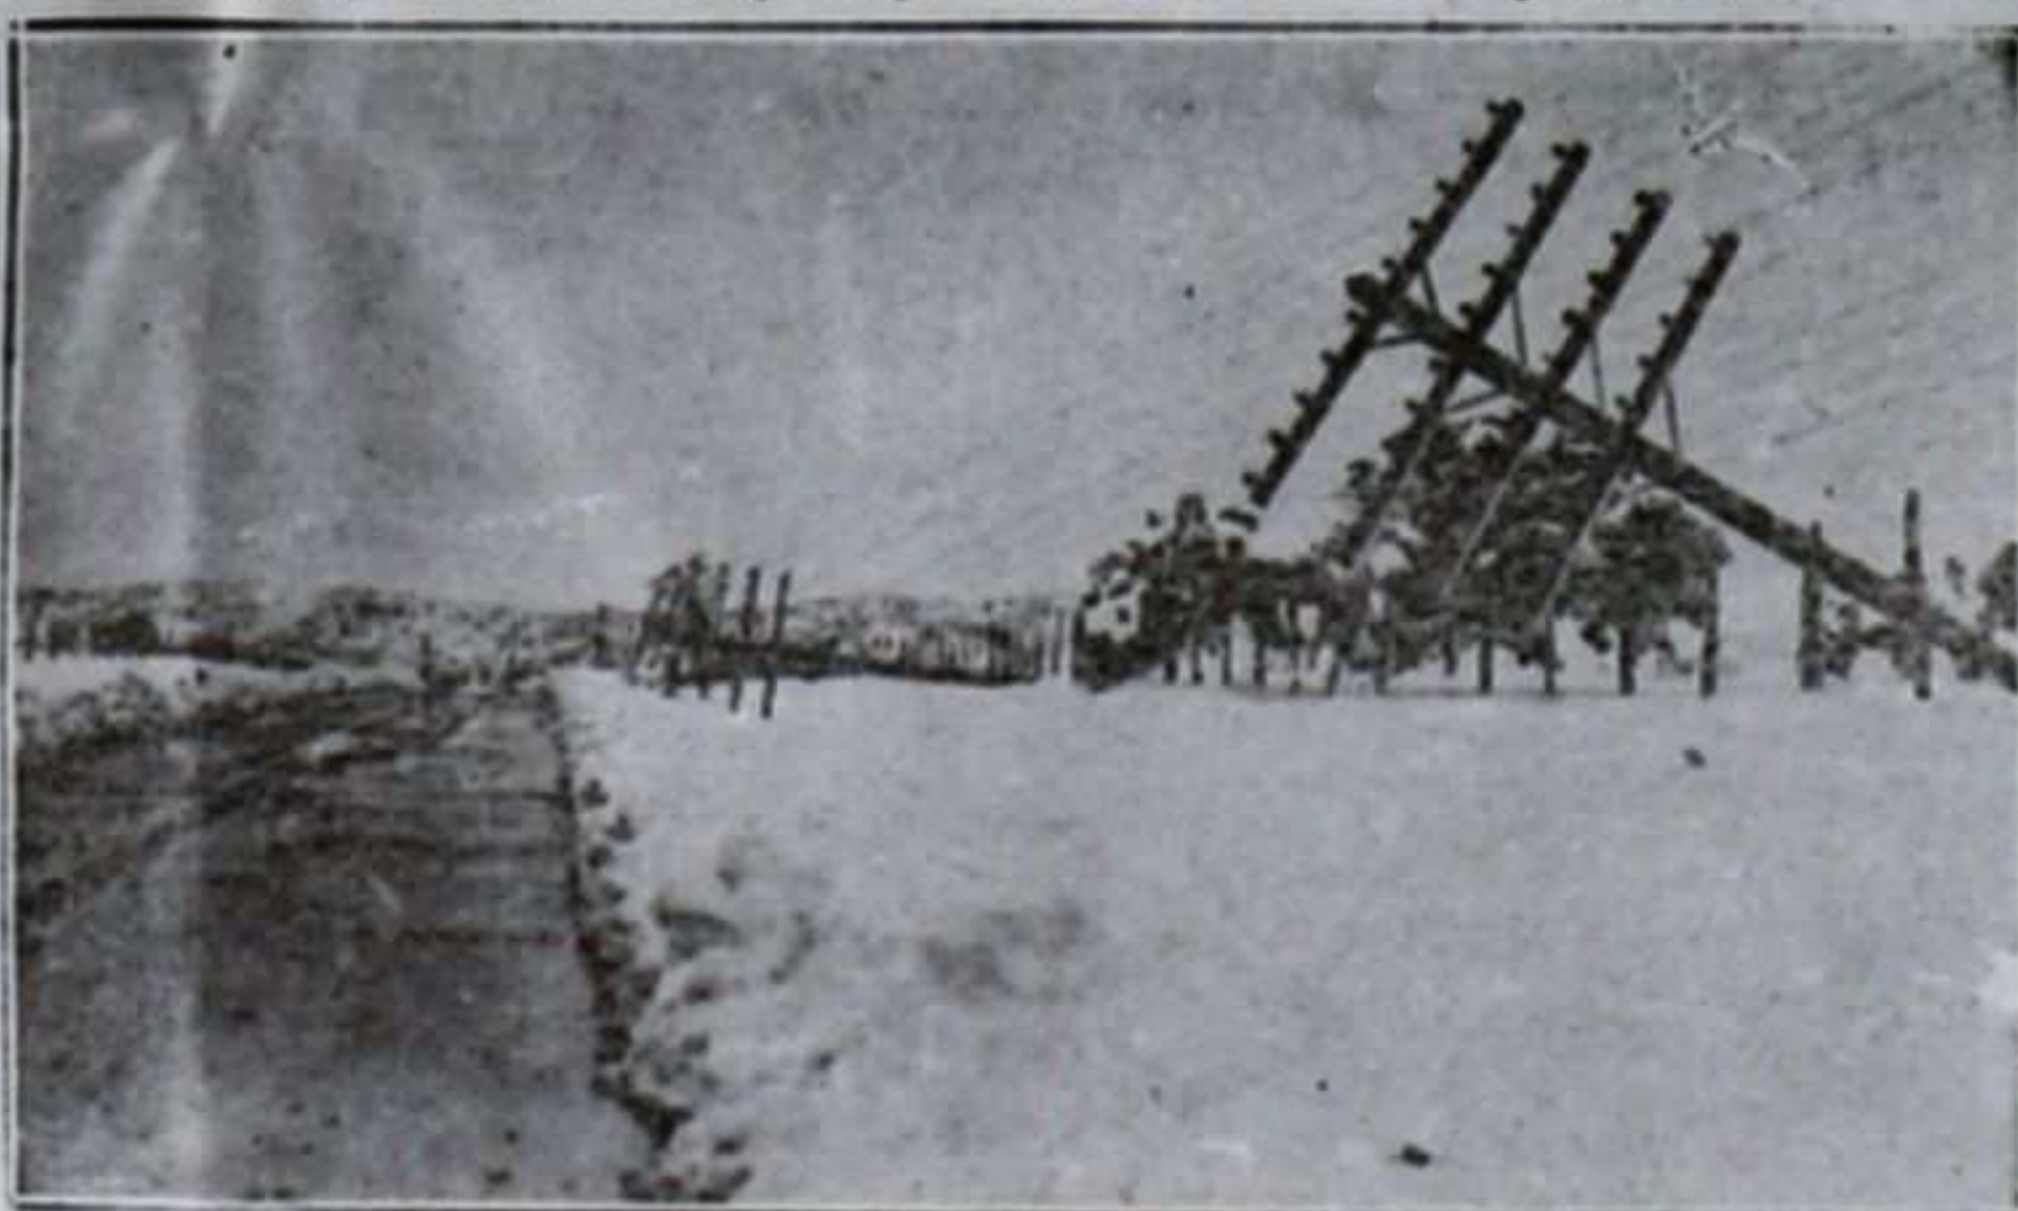

Teacher: "What is Boston noted for?"

Johnny: "Boots and shoes."

Teacher: "Correct. And Chicago?"

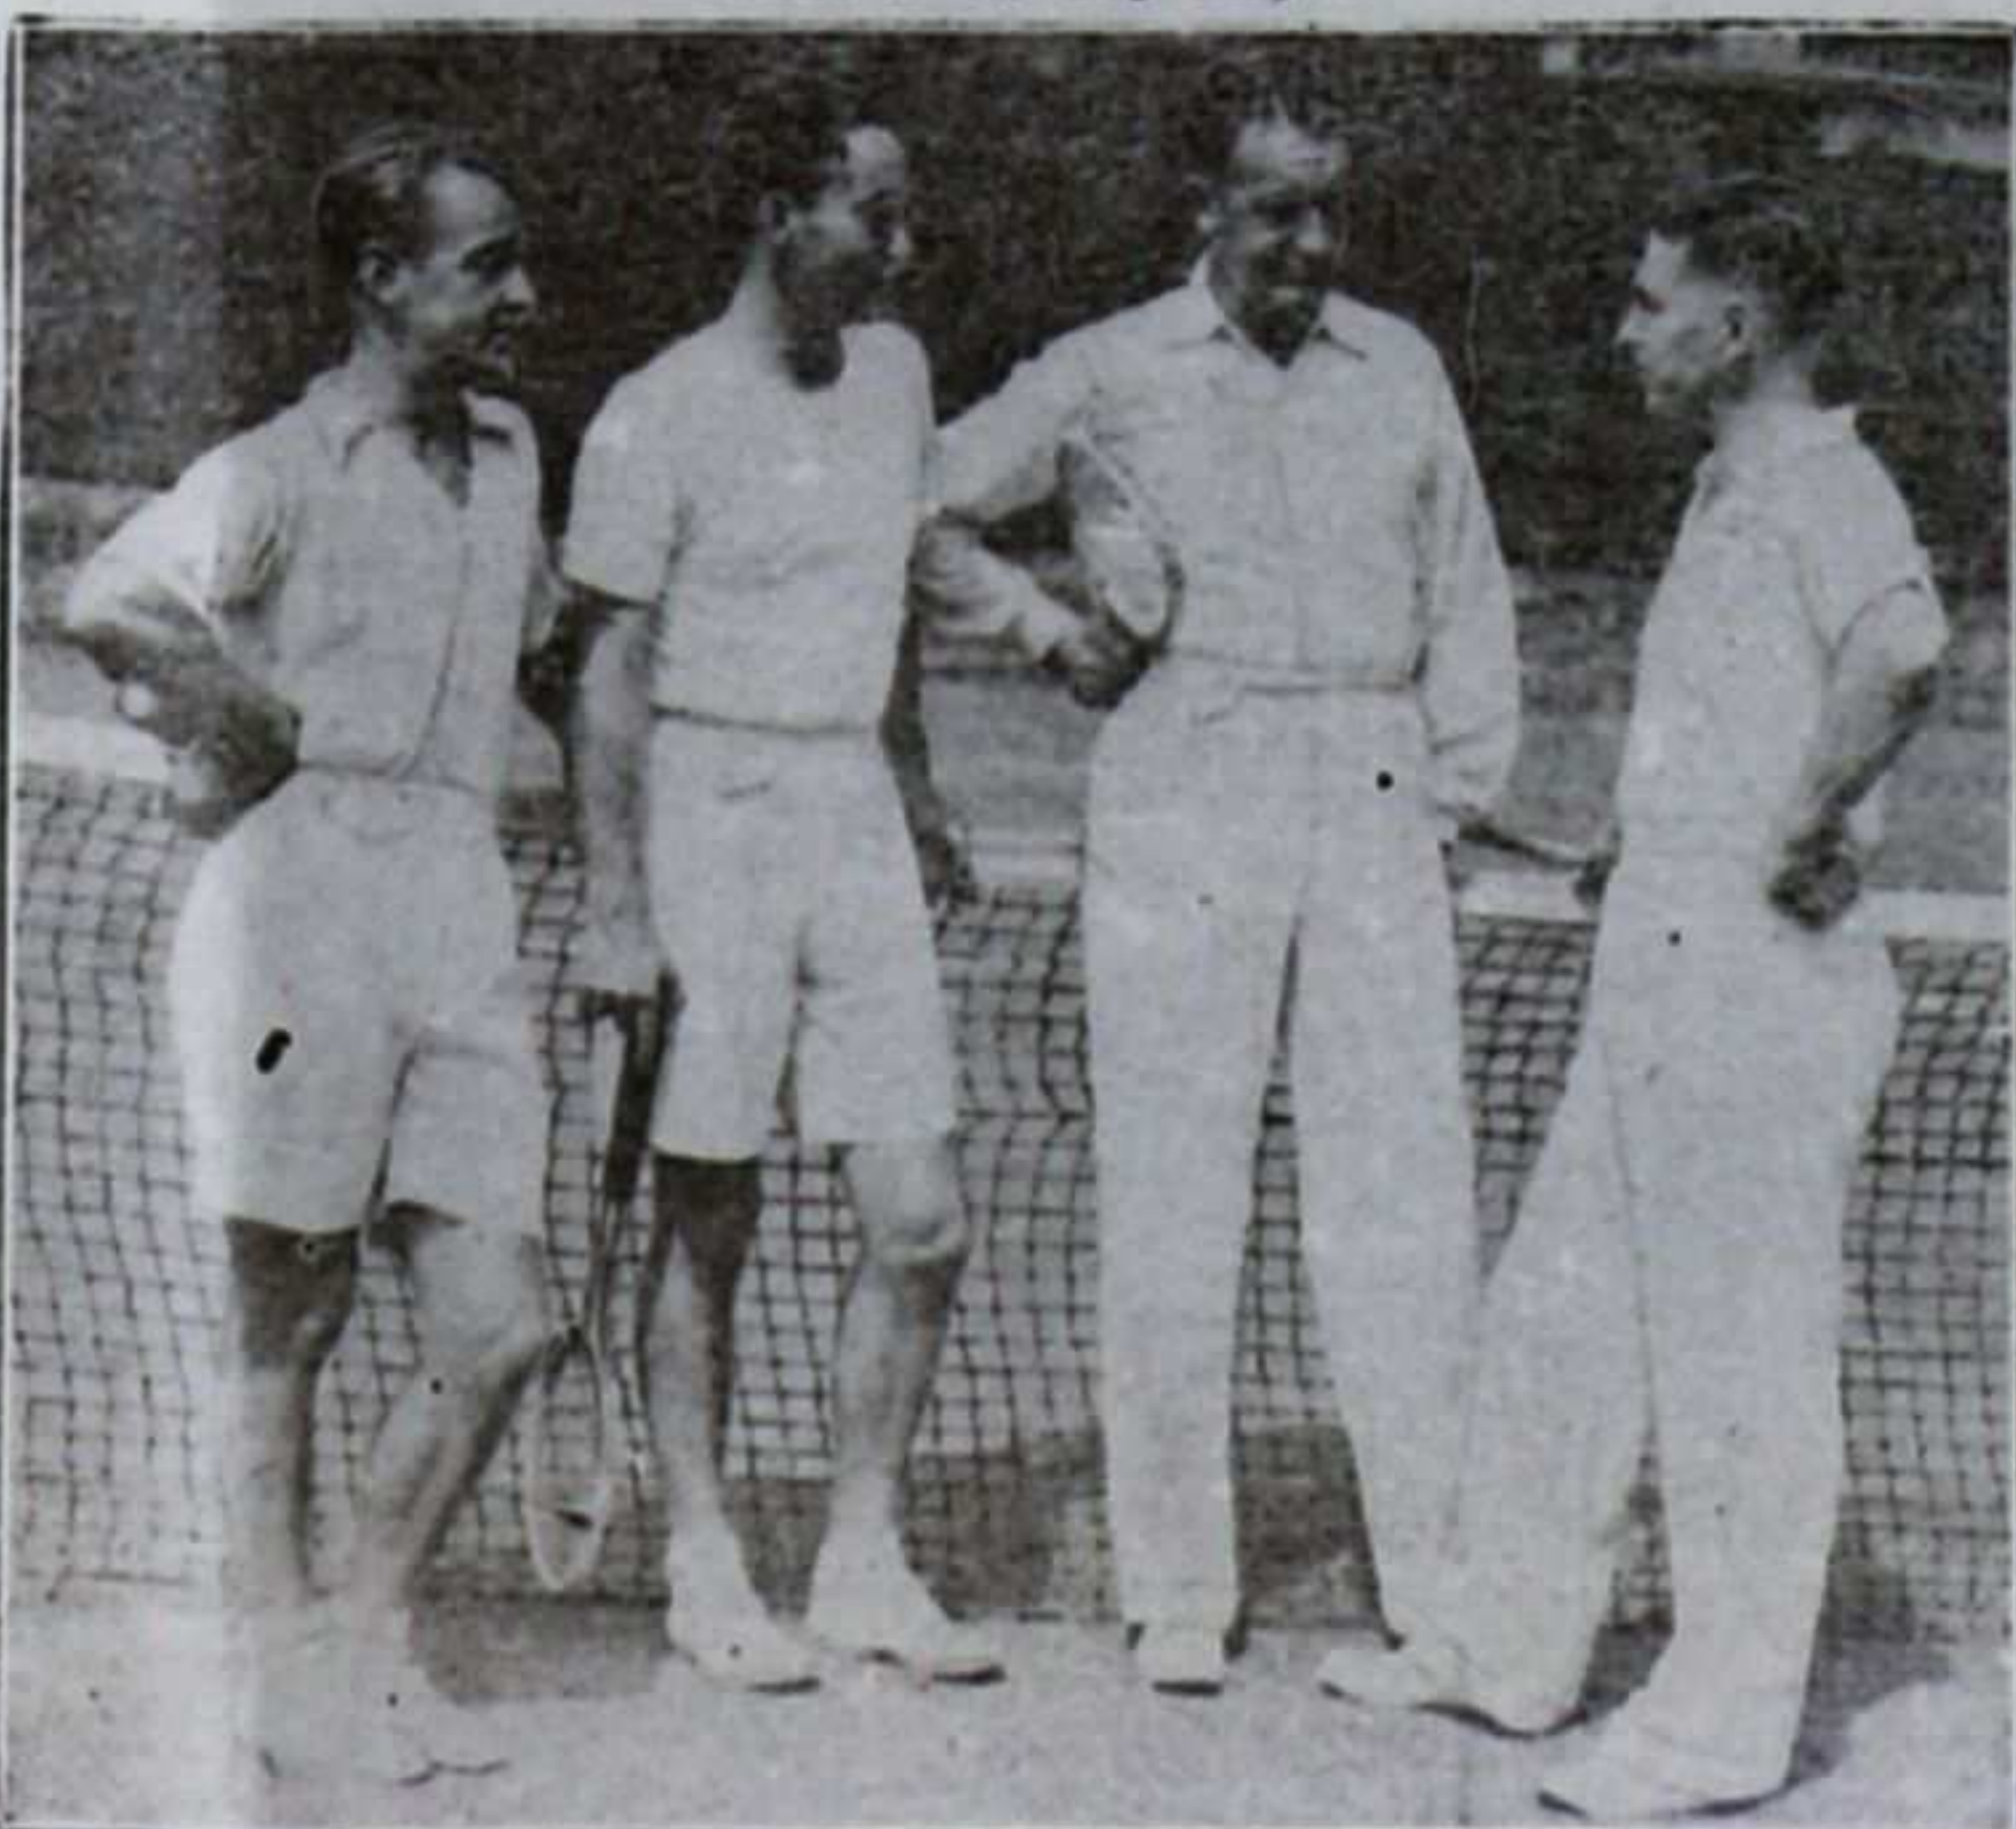

Johnny: "Shoots and booze."

The Merry Month of May Plays a Joker in the Rocky Mountains

A blizzard that swept the eastern slope of the Rockies from Wyoming to New Mexico tied up traffic, brought down telegraph wires and isolated towns. Telegraph pole, snapped by weight of snow and force of wind, shown down on highway near Trinidad, Col.

Hear of Navy's Defence Plans

Admiral William H. Standley, appearing with Norman H. Davis before the U.S. Senate Foreign Relations Committee to discuss the London Naval Treaty, told of plans for a huge floating drydock at Pearl Harbor, Hawaii. Left to right (seated) are Senator Borah, Senator Key Pittman, Mr. Davis and Admiral Standley. Senators Wallace White, Robert Wagner, Elbert Thomas and James Murray (rear).

Studio Recess Allows Juveniles to Catch Up on Their Lessons

In accordance with the strict California state law children used in the filming of "Anthony Adverse" take time out regularly to catch up on their school lessons. The teacher is shown with the youngsters on location.

Finds That It Pays To Advertise Milk

Figures Produced by New York State Show Increased Consumption

Several producers' organizations in Ontario have gone on record recently in favor of advertising campaigns, observes the Woodstock Sentinel-Review. In at least one case it was expected or hoped that the provincial or Dominion government, or both, would assist with the financing. Details were not worked out, so far as we recall, but the general idea seemed to be that expenditure in advertising would bring worthwhile returns in increasing demand for milk and its products, and helping to stabilize the market. New York state has now provided a very interesting demonstration of the fact that systematic advertising of fluid milk is beyond question, the results far outweighing the expenditure, although in this case it was very substantial.

The New York experiment is drawing near completion of its second year. The Legislature has appropriated 400,000 yearly as a revolving fund, the treasury being reimbursed by a levy of one per cent. per hundred pounds, contributed half each by distributors and producers. In the first year it was hard to see much difference, the downward trend of fluid milk consumption since 1930 continuing. Then in July, 1935 consumption in the New York metropolitan market began to increase, and each month since has shown a substantial gain. Total increase for seven months was 43,676,000 quarts. The following comment is from the Holstein-Friesian World of April 18:

"Improvement in general economic conditions undoubtedly had some effect but it does not supply the whole answer. In the sister market of Boston and Philadelphia, where economic conditions would have had substantially the same effect as in New York city, but which had no comprehensive milk advertising program, fluid milk consumption continued its downward trend for this same period. The answer seems quite conclusive as to the practical results of this investment in milk advertising."

"The figures indicate about 70,000 dairymen contributing to this fund, which means an average of about \$3 per year each, with an equal amount from the distributors. Certainly the benefits, as shown by these increases in consumption are far greater than the cost, and establish beyond argument the desirability of continuing the program. There should be a lesson here also for other important milk markets of the country."

Potato Variety Now Important

Experimental Farms Give Names for Ontario and Quebec

In planting potatoes too much importance cannot be attached to the choice of varieties. These recommendations have been made by the Dominion Experimental Farms and Stations, based upon the results of extensive variety trials conducted for many years, and one for Ontario and Quebec.

St. Anne de la Pointe, Quebec; Irish Cobbler, early; Green Mountain for main crop, Lennoxville, Quebec; Irish Cobbler, early; Green Mountain and Dooley, main crop. Dooley is gaining in popularity.

Ottawa, Irish Cobbler, early; Gold Nugget, a yellowish white skinned variety of recent introduction shows promise; Green Mountain and Dooley, important varieties. Dooley has gained in popularity, due to attractiveness of tubers and apparently ability of plants to withstand hot conditions in late July and mid-August. Harrow, Ont., Irish Cobbler almost entirely used; Early Ohio used in a limited way; Dooley and Green Mountain also used as main crop further east in Western Ontario. Kapuskasing, Ont., Irish Cobbler; Green Mountain not as satisfactory as Irish Cobbler.

Ontario Crop Report Good

TORONTO — With the sudden arrival of warmer weather agricultural conditions all over Ontario have improved noticeably during the past few days, according to the weekly report on crops issued by the Ontario Department of Agriculture. In all the parts of the province, fall wheat, alfalfa, clover and all meadows are reported in splendid condition with growth very rapid. Drouth is general but not far advanced due to excessive rains.

Tests Show Rats Are Intelligent

Adult Rats Exceed Children of Five Years in Reasoning Ability

ANN ARBOR, MICH. — Adult rats exceed in reasoning ability children up to 5 or 6 years old. It is shown by tests made at the University of Michigan by Dr. N. R. P. Maier, of the psychology department.

The primary object of the experiments was to determine when children first begin to show ability to reason, that is, to work out problems by bringing together, mentally, separate items out of their experience. This combining of isolated experiences is the main difference between reasoning and simple learning, Dr. Maier points out.

In children, mental activity which may be described fairly as reasoning seldom appears before the age of five and a half or six years. A child has learned much before then but he is seldom able to use his knowledge in new ways to solve a problem.

Reasoning in rats is tested by their ability to put together parts of a pathway which have been learned separately. Adult rats will make a score of 80 per cent and young rats a score of 64 per cent, Dr. Maier found.

With 29 children ranging in age from 3½ to 8 years, Dr. Maier used a problem situation similar to that used for the rats. Pennies or desired toys were used as stimuli, and the children greatly enjoyed trying to find the correct path, Dr. Maier reports.

Despite their enthusiasm the children as a whole only made 58 per cent correct scores.

Not until the average age of 7½ months was reached did the correct responses reach 58 per cent. It is probably between 5 and 6 that the normal child begins to "use his head," and this period may be regarded as one of a great change in the quality of behaviour, Dr. Maier concludes.

May Have Finger In Political Pie But He Can Still Cook

Former Chef, Now Member of Parliament, Gives Pet Recipe for "Shrimps Creole"

OTTAWA — He may be a member of Parliament but he has not forgotten how to cook, John Charles Landeryou, Social Credit member for Calgary east and former chef contends. "I may be busy cooking up other matters besides food and sticking my fingers in a new variety of pies but I still remember how to make a chicken pot pie," he said in an interview recently.

Mr. Landeryou was born in Toronto, went to New Orleans when he was 15 and got a job as a waiter. The behind scenes interested him more than the front however, and soon he was wearing a chef's cap.

His favorite dish is the southern shore dinner, all served on one large platter with tartare sauce. It includes half a broiled lobster, fried scallops, frogs' legs meuniere (sautéed in butter with lemon), soft shelled crab and shrimps creole.

He thinks Canadians do not eat enough fish as it is not cheap enough, and the reason it is not cheap enough is that not enough is eaten.

For his favorite dish of shrimps creole he gives this recipe for which canned shrimps may be used instead of the more delicate but less readily obtainable fresh variety: Sauté in butter one-third large green pepper finely shredded and one-third medium sized onion finely shredded, add one-third of large can of tomatoes with juice, one bay leaf, half a teaspoon of sugar, pepper and salt and a dash of vinegar. Then add one can of shrimps and cook together till the juice boils down. Remove bay leaf and serve.

Mr. Landeryou was chef for a large department store in Calgary before coming to the House of Commons.

Customs Up

CHATHAM, — An increase in all Departments was noted in the April report by the Chatham Customs Bureau. Total returns were \$31,229.76 in excess of those reported during March, including a \$67,557.01 increase at the Port of Chatham alone. An increase of \$31,123.27 over April, 1935, was also recorded.

The report by divisions showed: Chatham, \$315,230.86; Blenheim, \$958.65; Eriessu, \$15,313.78; Rake-tofni, \$501.50; and Tilbury, \$46,905.79.

Classifications returns included: Import duties, \$73,638.94; excise taxes, \$305,233.55; excise duties, \$25; and sundry collections \$13.

Any Time is Tea Time "SALADA" TEA

Quebec Reports Progress Of "The Peasant Arts"

A remarkable revival in handicrafts arts has taken place in the Province of Quebec during the course of the past few years.

This renewing in peasant art is interesting from several aspects. For the peasant or farmer, it constitutes an additional source of revenue, and this at a time when no source of income, however small, is to be discarded. It also constitutes, by creating more work right in their homes, an efficacious means of keeping on the land sons and daughters of farmers who might otherwise be attracted by the mirage of big towns. For the province, it is a precious art in that it contributes towards its retaining its cachet by the production of original and typical Quebec works of art, which form a decided contrast with the inferior products turned out by mass-production elsewhere. Finally, tourists in particular, are greatly interested in the rugs and other examples of domestic arts produced in our country districts.

This revival of peasant arts got under way a little more than six years ago, shortly after the founding in Quebec of a school of domestic arts. By direct teachings to pupils in the school itself, or by demonstrations and exhibitions in the various rural municipalities of the province, this school of domestic arts has contributed to a great extent in reviving interest in peasant arts and in elevating the quality of products.

The progress accomplished in this domain has resulted in beneficial effects for other branches or agricultural production. Thus, in 1935 alone, the quantity of wool employed in the

making of rugs, quilts, homespuns, etc., was nearly three million pounds. These different products find a ready outlet in the tourist traffic.

The revival of peasant arts is not limited simply to the fabrication of rugs, blankets and homespuns; it also includes furniture, leather goods and even pottery. Striking examples of these branches of industry were to be seen in the exhibition of products of handicrafts, held in the parliamentary Cafe in the Parliament Buildings last Summer. This exhibition, which was visited by more than 50,000 people, scored such a decided success that it has been practically decided to hold another one during the course of the coming Summer.

When Psychologists Disagree, What Can Ordinary Folk Think

CHICAGO — Dr. John J. B. Morgan, Northwestern University psychologist, commenting on a prediction that the Dionne quintuplets stood "a good chance of growing into heart breakers and old maids," declared recently there was no scientific basis for such a statement.

"The quint is too young to be affected one way or another," he said. "Their future attitudes toward the opposite sex will be molded by a great many factors during their childhood and adolescence."

The heart breaker prediction was made by Dr. Donald A. Laird, of Colgate University, who said the quint's segregation from little boys while very young might make them "man haters."

Dr. Morgan challenged the Colgate psychologist's statement that premature birth tended to make children better looking was also without scientific foundation.

The sales of branded beef in Canada for the month of February, 1936, were 3,571,276 pounds. The consistent progress of these sales may be visualized by comparison with the former months of February since the inception of branded beef — 866,466 pounds in 1931; 1,448,859 pounds in 1932; 2,299,968 pounds in 1933; 2,778,358 pounds in 1934, and 3,274,855 pounds in 1935.

"The man who permits himself to be cheated is just as bad as the man who cheats him," — Henry Ford.

Cross Stitch a Laura Wheeler Dog and Kitten on Pillow or Picture

CROSS STITCH DOG AND CAT PATTERN 937

Like to adopt a kitten, or a smart young terrier pup? Then send post-haste for the pattern, and get busy on these appealing cross stitch portraits. They'll adorn both picture and pillow, and very quickly, too, for crosses are an easy eight to the inch. Do them in either wool or silk, on light or dark background.

Pattern 937 comes to you with a transfer pattern of a dog's head 7 x 7½ inches, and a cat's head 5½ x 7 inches; a color key; illustrations of all stitches needed; material requirements.

Send 20 cents in stamps or coin (coin preferred) for this pattern to the Wilson Publishing Co., Ltd., 73 West Adelaide St., Toronto. Write plainly the PATTERN NUMBER, your NAME and ADDRESS.

Box Gardens

When you install an outdoor window box it immediately becomes part of the house, and should conform to its architectural design and color scheme.

For this reason it is well to construct your own window box, and it is not difficult to do.

Window box gardening is a recreation and delight which everyone can enjoy, whether he lives in the smokiest city, or the roomiest suburb. They are grown to be seen from both the inside or the outside of the house, and there is such a variety of subjects available that almost any location, except extremely shady ones, is suitable.

The box itself should be of the same color as the building, or as its trim and the flowers should be of a contrasting color which is harmonious. For a red brick house, white flowers and plenty of green foliage would be attractive. For a house in which yellow is the prevailing tone, blue flowers should be used. These are only suggestions, since the taste of the owner will control, of course.

The flowers must grow well, if the box is to give pleasure; and rich soil is most important, because there is so little of it. The soil should be what florists call good potting soil — a sandy loam well enriched. Holes drilled into the bottom of the box and covered with broken pieces of pottery will serve for drainage.

The best window-box flowers are those which bear flowers freely and continuously. In these respects the petunia has no superior. All types

are long bloomers, the large-flowered single and double, the small flowered singles, the dwarfs and the balcony types. The new fragrant double nasturtiums are fine window box material, and some of them are of the trailing habit.

It is possible to have a window box filled with morning glories, and it is hard to imagine a more beautiful decoration than their tapestry of green leaves and glorious blue flowers. They like a south exposure. —Gannasque Reporter.

May Strengthen Fortifications

Japan Warns of Action Should Washington Pact Expire

TOKYO. — A warning Japan will consider it necessary to strengthen its entire fortifications system in the Pacific if a new naval treaty is not concluded at the expiration of the Washington Agreement, was delivered by War Minister General Juichi Terauchi today.

(The Washington Treaty expires December 31 next).

Replying to a question in the Chamber, the War Minister said if no new agreement was concluded Japan would be forced to resume work on the fortifications—suspended by the Washington Agreement—and build up new defences to guard against "a new situation in the Pacific."

INVENTS NEW STOVE THAT MAKES OWN GAS

W. C. Coleman, Noted Inventor Makes It Possible for Every Home Everywhere to Enjoy Modern Gas Cooking Service at Low Cost

Housewives everywhere are enthusiastic in their praise of a new stove that makes its own gas and brings modern gas cooking service at low cost to homes everywhere. W. C. Coleman, noted inventor and pioneer manufacturer of gas-pressure appliances, regards this stove as his crowning achievement.

The new Coleman Range makes its own gas from ordinary lead-free gasoline. Lights instantly, like gas. The flame from its fuel-saving Band-A-Bla Burners is hotter than natural gas and is easily adjusted for fast cooking or slow simmering. Its low fuel consumption makes it cheaper to use than coal, wood or kerosene.

The Coleman Range has a spacious insulated oven and drawer-type broiler. An independently controlled burner provides any heat desired for baking or broiling.

Climaxing his achievement, Mr. Coleman endowed the Coleman Safety Range with gracious beauty, style and color. Persons wishing full information about these marvelous new Coleman Ranges, will receive beautifully illustrated literature and name of nearest dealer by addressing a postcard to Mr. W. C. Coleman, Dept. WL-212, 9 Davies Ave., Toronto, Ont.

Issue No. 22 — '36

Driver Started On Auto Deaths

By U. S. Red Cross--To Extend First Aid Chain, Convention Informed

CHICAGO — The American Red Cross has aimed reinforcements against death on the nation's highways, described by Admiral Cary T. Grayson, national chairman, as "a national emergency of year-round disaster proportions."

As the annual National Red Cross convention opened, organizers announced that rapid expansion of volunteer personnel to give emergency first aid in motor accident cases was deemed a major project. Admiral Grayson pointed to more than 36,000 killed and 105,000 maimed in the United States, in 1935 as the motivating force.

Already the Red Cross, since launching the service six months ago, has placed 1,600 emergency stations, manned by volunteers, in operation along dangerous sections of roads and has designated a total of 2,900 stations for establishment in 26 states.

"Eventually there will be 15,000 stations with first aid workers ready to give aid in those previous moments—between the time of the injury and admission to a hospital," Admiral Grayson said.

So important was the problem considered that one whole day of convention session was set aside for discussion of "emergency first aid on the highway," under the direction of Major Harry F. Evans, chairman of the Davenport, Iowa, chapter.

Going Wrong?

In the basement of the home of Dr. Rexford Guy Tugwell in Washington, his daughter Marcia and two other little girls have opened a dog laundry, comments the Chicago Daily News. Their motive, alas, is profit. What is more, they are advertising! They announce that they will wash medium sized dogs for 35 cents. And while it is understood and admitted that they intend to charge extra for flea powder, they are careful not to mention this in publicity.

Now, Marcia, is that fair? Is that honest? How many times have you heard your papa say that advertising at best is but a wasteful charge upon production? Has he not told you that advertisers must be forced to tell the truth, the whole truth, and nothing but the truth, on pain of his most severe displeasure?

And Marcia, another thing. Have you not gone about this whole business in the wrong way? Socialism, like charity, begins at home.

In the first place you should not have to do any of the work yourself. You, as chief administrator should just think up rules for washing dogs, with plenty of fines and imprisonment.

And you should not have to solicit business. Wouldn't it be much simpler to have your papa get the president of the law enforcing all dog owners in your neighborhood to have the dogs washed at the Tugwell DWA?

Above all, do not use the basement. That is very horse-and-buggy indeed. Why not call up a contractor? Order him to build you a fine new dogery in the back yard. Never mind the cost. Papa will pay that. If he didn't he would be just a selfish old Tory.

Marcia, Marcia, we fear that you're going wrong.

"Let me tell you something: Don't go after riches. There is nothing to it. That is my advice to all young men."

—Charles M. Schwab.

Buckingham FINE CUT

Here's a Man Who Bit a Dog

The man who bit the dog is no longer a legend. While a wedding procession was marching through the streets of Beshenevo, Yugoslavia, the bridegroom—who was the Mayor of the township, Dusko Chritch — in a frenzy of happiness seized a barking dog which was accompanying the party and bit its tail off.

The dog's howls were drowned by the music of the wedding band, but the Mayor's act did not go unnoticed by his critics on the local council. The latter declare that local opinion is so shocked over what is considered the undignified act of the Mayor, that it is likely he may be deposed. The Mayor himself pleads that high spirits at the prospect of his marriage, and the number of toasts his friends had made him drink, were responsible for his biting the dog.—South Slav Herald.

FREE! BOOK on BASEBALL!

Every boy and baseball fan will want this up-to-date book, "Baseball—And How to Play It," by Frank J. (Shag) Shaughnessy, Manager of the pennant winning Montreal Royals. Pitching, batting, base running—all the fine points of the game are clearly explained and illustrated. Here's how to get it. Simply send in to the address below a "CROWN BRAND" or "LILY WHITE" Corn Syrup label with your name and address and the words "Baseball Book," plainly written on the back—and your copy will be mailed to you right away.

STOCKS and Their MOVEMENTS

There is nothing here in the nature of a market program, but at the same time it may not be out of place to name some of the spots where the fever is burning, and let the individual decide for himself whether to plunge and take the risk which the cards of the future may turn up for him.

The Pickle Crow area, which was started years ago by the Central Pacific, but which, of late, was forced to the front by the success of the Pickle Crow Gold Mine, now has a swarm of diamond drillers exploring the possibilities of the surrounding properties. The Kaw-Crow, Gateway Patricia, Winoga and Albany River are all going through the early throes which will pave the way for victory or defeat.

WE, TOO, BELIEVE GATEWAY-PATRICIA WELL WORTH INVESTIGATING

Already Winoga and Kaw Crow, on which diamond drilling was started recently, have shown market appreciation. On Tuesday, May 19, approximate prices were:

KAW CROW...36c (11 cents above January issue price.)
Capital Appreciation 44 per cent.

WINOGA...44c (9 cents above March issue price.)
Capital Appreciation 25 per cent.

Contract for drilling at Gateway Patricia has been let and work will commence almost immediately.

GATEWAY NOW SELLING AT 25c

THIRTY MOUNTAIN

Mr. and Mrs. Bowman, Montrose, and Miss R. Bowman, Kitchener spent the weekend and holiday with Mr. and Mrs. J. Sobey.
Mr. and Mrs. B. Hurst spent Sunday with Mr. and Mrs. Delos Hurst.
Mr. Wm. Kemp, Ashley Elliott, Geo. Kemp and Mr. House of Dundas, are on a fishing trip to Bracebridge.
Mr. and Mrs. B. Chadwick spent Sunday with Mr. and Mrs. Librock.
Mrs. Blanchard and daughter of Grassies who have spent the past two weeks at the home of Mrs. Kemp returned to their home on Monday.
The Ladies' Aid will meet at the home of Mrs. F. Lane, June 4th.
Miss Pearl Procyshyn returned home from Buffalo on Sunday.
Mrs. Horn and Arthur spent Sunday at Delta visiting Mr. and Mrs. E. Carter.
Mr. Arthur Kennedy of Toronto spent the weekend with Mr. and Mrs. Curtis Miller.
Mr. and Mrs. W. P. Millward and Mr. and Mrs. Cecil Millward of Hamilton spent Monday with Mr. and Mrs. E. Hurst.

WINONA

Mrs. W. B. Bridgman, on Monday, celebrated her 92nd birthday at the home of her daughter, Mrs. R. O. Y. Ainslie. She is mother of Rev. C. A. Bridgman, well-known missionary.

The Week's News of The Surrounding District

BEAMSVILLE

About forty members were present for the annual meeting of the Women's institute held last week. Officers for the ensuing term were elected as follows: President, Mrs. C. C. Lyall; first vice-president, Mrs. Fred Jeffery; second vice-president, Mrs. B. Bartlett; secretary, Mrs. Roy Saunders; treasurer, Mrs. Banks; district director, Mrs. J. A. Toohy; directors, Mrs. D. Kennedy, Mrs. Charles Sweet, Mrs. William Southward, Mrs. H. Bolton, Mrs. C. Watterworth, Mrs. Charles Pruthomme, Mrs. J. A. Sinclair, Mrs. Charles Tallman, Mrs. A. D. Fleming, Mrs. R. O. Wilcox, Mrs. E. Hurst, Mrs. William Kemp; flower committee, Mrs. Arthur Culp, Mrs. B. Bartlett, Mrs. George Lister, Mrs. W. Fairbrother, Mrs. William Southward; school committee, Mrs. Southward, Mrs. Hurst, Mrs. Gordon Philp, Mrs. R. Reid, Mrs. Charles Watterworth; head conveners of standing committees, Mrs. Toohy, Mrs. Saunders; auditors, Mrs. Jeffery, Mrs. Sinclair; press, Mrs. Saunders.

Considerable hail fell throughout this area in the short thunderstorm of Tuesday, May 19th. No damage to either the fruit or gardens was reported.

Arthur Fleming, of the local public school, was the winner of the essay, Canada To-day and Her Possibilities for the Future. Kathleen Fisher, of the same school, won second place and Olive McKeown, of the brick school, No. 4, Clinton, third.

The competitions were held under the auspices of Lena Davis Chapter, I.O.G.E., in connection with the Empire day activities carried on at the Community hall on Friday. Five hundred public school pupils listened to a program of choruses, songs and recitations by the Beamsville and section pupils. Principal Auld of the high school, and Mrs. A. Allison, regent of the Lena Davis chapter, and Mrs. C. W. Tufford, educational secretary of the chapter, presided.

A raise of approximately \$100,000 in Beamsville's county assessment over 1935 means about a three mill advance in the tax rate unless appropriations are reduced and the council is being urged to enter an appeal to the county judge.

Sulphur combustion in a blower at the Bartlett Spray plant in Clinton township caused an alarm to be sent in around 9.30 last night, but good work by employees at the plant in removing burning sulphur outside and extinguishing it there with their own hose caused the call for the chemical truck to be cancelled. The damage was slight.

At a meeting of the school board all the teachers in the high school have been re-engaged for another year. Misses Ross, Wood and Kohler will continue at the same salary. A raise was given to the principal, W. J. A. Stewart, based on the excellent report of the inspector.

VINEMOUNT

Mrs. E. Harrison, of Blackheath, district, W.I., president, conducted the election of officers at the Women's Institute meeting on Thursday, the following officers being re-elected: Mrs. P. Shaker, president; Mrs. A. Ready, honorary president; Mrs. E. Tawley and Mrs. A. Thomas, vice-presidents; Mrs. R. Bell, secretary-treasurer; Mrs. H. Dewey, district director. Miss Dear gave a most interesting address on missionary work in China.

The Vinemount Home and School club elected the following officers for this year: Mrs. Eric Jeffries, president; J. B. Robinson, I.P.S., and Miss Gladys Motley, school nurse, honorary presidents; Mrs. G. Holt and Miss A. Ready, vice-presidents; Mrs. Harry Sturch, past president; Mrs. F. Weylie and Mrs. W. L. Taylor, secretaries, and Audrey Giddon, treasurer. The annual garden party will be held on July 17.

FRUITLAND

At the Sunday evening service at Fruitland United church, Gordon Lapp, of Toronto, secretary of Boys' Work, and Miss Charlotte Douglass, of McMaster university, were guest speakers. At the close of the service a presentation was made by C. E. Freeman, on behalf of the Scout troop and young men's Bible class to George Calland, former Scout leader, who recently moved to Toronto. William Lines tendered the gift to George, and short speeches were made by Rev. I. M. Moyer, Charles Lounsbury (chairman of the Scout committee) and Gordon Lapp. Although taken wholly by surprise, George very suitably replied.

GRIMSBY CENTRE

Her friends regret to learn that Mrs. E. Erick is under the doctor's care.

Mrs. D. Shaw of Dunnville is spending a couple of weeks with her sister, Mrs. Southward.

Mr. and Mrs. Murray Blanchard are the proud possessors of a baby girl, born at Mrs. William Kemp's home on Tuesday, May 19.

Mr. and Mrs. H. Secor spent Sunday evening with the latter's parents, Mr. and Mrs. John Erb.

Mr. Milan Krick is much improved after his recent illness.

Tuesday evening's rainfall was a welcome visitor to this district.

Many from the Centre attended the Cooper Bros. Circus in Grimsby on Monday. Everyone reported a good show.

SMITHVILLE

The village Tennis club planned the season's activities at the annual meeting last week. Frank Nelson was elected president and David Magder secretary-treasurer.

A. Y. P. A. HOLDS CLOSING BANQUET

(Continued from page 1)
The A.Y.P.A. was presented with a past president's badge by members of the St. Andrew's Branch.

Appreciation of the excellent address of Mr. Towne was voiced by the president, Mr. Mabey.

Following the singing of the A.Y.P.A. song "Advance", those present adjourned to the hall upstairs where the following took part in the excellent program given: Flute solo, Jack Wilcox; vocal solo, Miss Helen Lothian; piano solo, Lorne Wilcox; address on "The Book of A.Y.P.A. Life" by the guest speaker, Mr. Reginald Towne of Hamilton, a past president of the A.Y.P.A. Dominion Council and manager of the A.Y.P.A. summer camp.

Preceding the program reports from the treasurer were presented showing the society to have enjoyed a very successful year.

The following newly-elected officers were installed by Mr. Robert Hall, President of the Local Council of the A.Y.P.A.: President, Edward Mabey; Vice-Pres. Norn Bourne; Secretary, Madge Croft; Treasurer, Wilson Johnson; Corresponding Secretary, Helen Lothian.

The executive of the Branch presented four dozen cups and saucers to the Parish Hall.

The gathering dispersed following the singing of the National Anthem. Miss Madge Croft occupied the chair during the giving of the program.

SHOULD CALL GRIMSBY DIRECT

(Continued from page 1)

served by three telephone centrala, namely, Grimsby, Beamsville and Winona. Those being served by Beamsville or Winona when fire occurs should call Grimsby direct, get the chief at No. 123 or the Deputy chief at No. 506, give the information that the fire is within the boundaries of North Grimsby, giving location as near as possible and they will immediately be on their way to render assistance. If the fire is located outside the boundaries of the township they cannot respond until they have the proper authority to go. It is also proposed to have a map or chart of the township posted in the firemen's quarters showing where the homes of the different residents are to be found. Have those telephone numbers near your phone so it is not necessary to refer to telephone directory as fire always creates excitement and valuable time is lost if necessary to refer to directory.

We feel that we have in Grimsby and North Grimsby a well organized and efficient volunteer fire department supplied with good equipment and the chief and his men are willing to do their best to render you a service.

Again I say while we regret that Mr. Kemp failed to get the service he was entitled to, it may be the means of avoiding a similar occurrence in the future.

P. Graham,
Sec'y. of Joint Fire Committee.

AWAY BACK WHEN

(Continued from Page 1)

Wales, inspected the troops, accompanied by Lord Roberts and General Otter. The Grand Military Review took place on Friday, July 24th. The 44th Band played a very prominent part in this inspection. There is an anecdote in connection with it which may be true or not, but is worth while repeating. It seems that just before the big parade the band drummer lost his drumstick and apparently the time was very limited for him to procure another. The story says that he took a large potato and jabbed a fork into it and lashing it fast with string played the Regiment past the Prince.

The Quebec visit was not the first time that the 44th had played before royalty, for some years previously they had played before the Duke and Duchess of York at Toronto Exhibition.

About 1907-09 J. Walter Gage of Hamilton was conducting large real estate sales throughout Western Ontario. Being a business man he knew the value of wide awake advertising. One of his methods was to hire the 44th Band and take them to where he was opening a sub-division to give a concert for him and thus attract a crowd. In this manner the band travelled pretty well all through the western part of the Province and always they had a special car at their disposal. For a few years the band did considerable Fall Fair work, playing at fairs all over Ontario even as far north as Gravenhurst.

Bands are like everything else in this world they have their ups and downs. The 44th received its downward bump in 1914 when the Great War occurred. Many of its members enlisted for overseas service, some returning and others giving their all on Flanders fields.

In spite of the number that the band had lost it carried on. It became during 1920 the Citizens Band. Shortly after it became the Citizens Band Mr. Howard resigned as leader. He was followed by S. B. Bradley, who had played in the band previously.

This band died a natural death in 1922 and Grimsby was without a band until 1928 when the late Hugh D. Walker succeeded in getting another organization under way with S. B. James as leader, but it only lasted a few months and ceased to function.

In the summer of 1934, the present band was organized and after several trying months at last secured for bandmaster, Fred Timma, and now the band is a smart musical organization of 30 pieces, mostly young blood, that is bound to be a big help to the community in many ways.

BEAMSVILLE

The thirty-sixth anniversary services of Knox United church was held on Sunday and Monday, Rev. J. L. Small, B.A., B.D., of Smithville, preached in the morning and Rev. N. A. Murray, B.A., B.D., of Niagara Falls, at the evening services. Evening services in Wesley and the Baptist churches will be withdrawn on account of the anniversary.

On Saturday Mr. and Mrs. Chauncey Coons of the Twenty Road, observed their 50th wedding anniversary. Their home was filled with their guests.

The gathering dispersed following the singing of the National Anthem. Miss Madge Croft occupied the chair during the giving of the program.

BROADCAST FROM GRIMSBY VERY FAVORABLY RECEIVED

(Continued from page 1)

Will you thank the speaker for his reference to the value of music in the schools.

Yours sincerely,
G. Roy Fenwick,
Provincial Supervisor of Music.
G. L. Eaton Esq.,
Grimsby, Ont.

(Postcard)
244 Warway Avenue,
Kenmore, N.Y.
Superintendent of Schools,
Grimsby, Ontario.

We listened with delight to your singing last evening, also the very interesting talk on the beauties of your village.

I think our favorite number was "I Hear a Thrush at Eve". It was very lovely.

A small orchestra consisting of a few good players would be a fine addition.

Sincerely,
Mary Alice Jameson,
(Mrs. Hugh.)
CRCT carried your programme to us.

310 Cambridge St.,
Ottawa
Gentlemen:—
Just a few lines to let you know how much I enjoyed the programme last night. It certainly was lovely. I am sure you are proud of such a combination.

It is a long time since I have listened to such lovely singing. The voices blended lovely. I am sure they rank with the best. The only fault—it was too short.

I remain yours,
F. H. Fellows.
P. S.—I could not remember the name over the radio, so I addressed the letter to the School Board.

R3 Cobourg, Ont.,
May 18, 1936.

Mr. Gordon Eaton,
Music Director,
Grimsby.

My Dear Sir:
The broadcast of the Blossom Time Festival was good, and I should say, of a high order.

Music is inherent in the hearts of men regardless of their estate; and programs which appeal to the finer nature are, I think, of inestimable value to participants and listeners.

Also the description of Grimsby and vicinity by a Mr. Logan, was it? was also good—it was like a poem, in that natural beauties were described in a poetic style without narrowness nor arrogance.

The announcer invited comment which explains this letter.

D. Alkinson,
23 Province St. South,
Hamilton, Ontario,
May 19, 1936.

Dear Mr. Eaton:
Allow me to compliment you on the splendid Blossom Time program I heard last night over C.H.M.L.

The children certainly are a credit to you, and I enjoyed the singing of the young chap who sang alone immensely. Too bad we don't get more of that type of program.

Wishing you every success,
Sincerely yours,
Ivy Stoelzer.

(Postcard)
Brampton, Ont.,
Monday Night.

Congratulations.
The reception was excellent. Enjoyed your choice of numbers and everything about them.

Your admiring fans,
Mr. and Mrs. Roy Woods.

Dundas,
May 19, 1936.

Mr. Gordon Eaton,
Grimsby, Ont.

Having listened to your program Monday night am writing a few lines to say our family thoroughly enjoyed it. The chorus came over just great, and sounded as if a lot of time and hard labour had been given to it, and having come from the "old Home town" made it seem very real indeed.

Sincerely,
Mrs. Chas. Caldwell.
59 Pine Crescent,
Toronto 8,
20/5/36.

Dear Mr. Eaton:
I hope that all Grimsby friends in Canada had the privilege of listening to the "Blossom Time Music Festival" as broadcasted over C.R.C.T. on Monday evening.

The Chorus, whether by Young Men or mixed, two part, or with distinct, seemed as distinct as a bell.

Mr. Lothian's remarks about the Blossom and district made me feel that the committee, teachers, etc., had done a very good job.

accompanist, and you, as director.
Most sincerely,
Eva Fleming.

125 Noel Street,
Ottawa, May 20, 1936.

Gordon Eaton, Esq.,
Grimsby, Ontario.

Dear Sir:
I wish to express our enjoyment of the half hour programme broadcasted from the "Blossom Time Festival" on Monday evening.

Both the children and young men's voices came over very well. The solo was also much enjoyed.

Best wishes for your continued success.

Yours very truly,
C. Hague.
Port Hawkesbury, Nova Scotia,
May 18th, 1936.

Mr. Gordon Eaton,
Grimsby, Ontario.

Dear Sir:
The program "on the air" (through Station CFCY Charlottetown, P.E.I.) on Monday night, given by the Young Men's Glee Club and the scholars of the Public Schools of Grimsby, Ont. was delightful indeed. The selections were choice and the rendering showed what training, and good directing can accomplish among the young folk. The director (whose name I have forgotten at this moment) should be congratulated on being able to develop musical talents that probably would remain undeveloped in some cases, if such one did not have this splendid training. I wish all our Canadian Schools had the same opportunity given them.

I had the pleasure a few years ago, of passing through the fruit belt of Southern Ontario, through Grimsby, on to Buffalo—and I can assure you, the description given by the speaker was not at all overdrawn. It was quite as beautiful as portrayed.

I'm quite sure many others enjoyed the program as well as I.

Yours truly,
Henrietta E. Embree.

Montreal, Que.,
May 19/36.

Mr. Gordon Eaton,
Grimsby, Ont.

Dear Sir:—
Having listened in on your broadcast last evening, I take great pleasure in commending the younger folks of Grimsby. I found them splendid and wish them every success for their future broadcasts.

There are a few remarks I would like to make in connection with Grimsby. At the time of your broadcast, we were planning our annual vacation and have been sometime pondering on Grimsby or Grimsby Beach. Of course we have never been farther than Toronto altho I am a C.N. employee and I thought we may try that part of the country this season. It will be about the middle of July, and it would give me great pleasure and if it is not too much trouble I would like you to refer my name and address to parties interested. We are middle aged couple and would like a private family to go to if possible.

I thank you in advance, and would like to hear of another broadcast in the near future.

Yours truly,
Mr. and Mrs. D. Sonne,
824 Champagne Ave.,
Outremont, Montreal.

Hamilton, 5/22/36.

Dear Sir:—
Just to let you know how we enjoyed your fine program on Monday last, I am sending a word to say congratulations Mr. Eaton, to your outstanding talent of singers which you have in Grimsby—the school children, Grimsby Glee, and the fine soloist.

It must have brought an unusual treat to the people of Grimsby on being broadcasted over the C.R.C. and to the many listeners.

Wishing you and the fine talent every success.

I remain yours truly,
Arthur Schofield,
149 Kensington Ave. N.

TRINITY YOUNG PEOPLE'S BANQUET

(Continued from page 4)

Pianists, Mary Irvine, Annella Current and Mrs. J. Walsh.

The reports presented indicated that the organization had enjoyed a splendid year, the meetings having been of a high standard while the various undertakings successfully carried through included a Strawberry Festival, a Play and skating parties as well as interchanges of visits with other societies, a Sunday Church Service, a group competition, debates and other activities. During the year the society also had the privilege of hearing outstanding speakers from neighboring cities whose stimulating messages contributed to the excellent programs presented in the various departments.

The treasurer's report, presented by Albert Jarvis, showed the finances of the society to be in a flourishing condition, the organization recently voting the sum of \$75.00 to the funds of the church.

A pleasing feature of the evening was the presentation to Miss Grace McPherson, for the past year the capable head of the citizenship department, and one of the most valued and active officers of the organization, of a handsome set of Pyrex Ware, accompanied by the hearty good wishes of the society on the occasion of her approaching marriage this month.

Miss McPherson made a suitable response.

The meeting concluded with the singing of the National Anthem.

GOVERNOR GENERAL
VISITS HAMILTON

Hamilton was "at home" on Tuesday to Their Excellencies Lord and the Lady Tweedsmuir.

Thousands gathered at the depot and lined downtown streets to greet the Governor-General and his party upon their arrival for a full day's visit.

The mayor of the city read an address of welcome and the vice-regal party visited various points of interest.

private family to go to if possible.

I thank you in advance, and would like to hear of another broadcast in the near future.

Yours truly,
Mr. and Mrs. D. Sonne,
824 Champagne Ave.,
Outremont, Montreal.

Hamilton, 5/22/36.
